

24V applications

Heavy duty vehicles need the right voice!

- Voltages of 24V
- Decibel from 109dB to 116dB
- Easy to install with Faston connectors
- Trumpets, Disks and Pneumatic horns

Code	Model	Frequency	Decibel
922010	TR99 2T	500/420	112
922012	TR99 L+L 2T	420/420	112
922020	TR99 H 2T	500	109
922021	TR99 L 2T	420	109

Code	Model	Frequency	Decibel
920368	HK9 2T	425/340	113
920369	HK9 H 2T	425	110
920370	HK9 L 2T	340	110

Code	Model	Frequency	Decibel
921998	ALA 24V	490/390	116

How to choose between the proposals?

HK9 -> bi-tonal or single disc for tight spaces applications thanks to its compactness.

TR99 -> bi-tonal or single horn to maintain the sound quality and reliability of a classic horn, combining sound power and compactness.

ALA -> Set of two-tone alternating horns for unrivalled quality and sound pressure level. Compressor and hoses are supplied in the kit for an easy and quick installation. Perfect for bus applications.
