Die Hitachi Gruppe mit Hauptsitz in Tokio, Japan ist Weltmarktführer in verschiedenen Industriesparten der Wirtschaft mit einem jährlichen Gesamtumsatz von ca. 90 Milliarden Euro. Die Hitachi Automotive Systems Sparte trägt mit ca. 9 Milliarden Euro Umsatz p.a. einen großen Teil zum Gesamtumsatz bei.

Mit weltweit fast 60 Standorten zählt der Geschäftsbereich Hitachi Automotive Systems zu den Global Playern in dieser Branche.

Bereits im Januar 2012 erwarb der Hitachi Konzern die HÜCO Automotive GmbH. Auf der Suche nach einem Kompetenzzentrum für den Aftermarket in Europa und Afrika hat Hitachi diesen Partner in HÜCO gefunden. Aus dem erfolgreichen Zusammenschluss ist nach einer Umbenennung im April 2015 die Hitachi Automotive Systems Espelkamp GmbH entstanden.

Trotz der Konzernzugehörigkeit hat sich die Hitachi Automotive Systems Espelkamp GmbH ihren Mittelstandcharakter bewahrt und damit auch die Geschwindigkeit und Flexibilität, Nachfragen des Marktes und Bedürfnisse der Kunden zu erkennen und diese in Produkte und Services umzusetzen. So ist die gesamte Produktpalette des Unternehmens ständig aktuell in TecDoc zu finden und auch über die dazugehörige Plattform TecCom zu bestellen. Auf die Produkte der Marke HÜCO bekommen Kunden eine im Markt sonst nicht vorhandene 5-Jahres-Garantie*.

Die strategische Ausrichtung der Hitachi Automotive Systems Espelkamp GmbH orientiert sich an den wachsenden Qualitätsansprüchen des internationalen Aftermarkets. Die Herstellung und der Vertrieb hochwertiger Automotive Produkte ist die Herausforderung, der sich unser Unternehmen seit über 35 Jahren erfolgreich stellt. Als ISO9001 zertifiziertes Unternehmen und am indischen Standort auch TS 16949 zertifiziert, beliefern wir u.a. OE- und OES-Kunden auf der ganzen Welt.

Die Hitachi Automotive Systems Espelkamp GmbH vereint mit den beiden im Markt etablierten Marken Hitachi und HÜCO zwei erfolgreiche Brands, welche im Aftermarket eine kaum vergleichbare Auswahl anbieten können. Daneben wird auch noch die dritte Konzernmarke TOKICO aktiv vertrieben.

So profitieren Hitachi Kunden von drei starken und attraktiven Marken, einem zuverlässigen Partner und einer hochwertigen, ständig wachsenden Produktpalette.

The Hitachi Group, headquartered in Tokyo (Japan) is world leader in different industrial sectors with an annual turnover of approximately 90 Billion Euro. The Automotive division takes a large part of total sales with about 9 Billion Euro turnover p.a.

Hitachi Automotive Systems is a world leading OE supplier to the automotive industry, having a global footprint with almost 60 automotive factories which are located all over the world.

In January 2012, HÜCO was acquired by the Hitachi Group. In search of a competence center for the aftermarket in Europe and Africa, Hitachi found the perfect partner in HÜCO. This successful acquisition led to a renaming of the company in April 2015 and thus the foundation of Hitachi Automotive Systems Espelkamp GmbH.

Despite being a part of a multi-billion Euro and international group, Hitachi Automotive Systems Espelkamp has kept its medium-sized business character and thereby the speed and flexibility to detect the demands of the market and transfer them into new products and services. Thus the whole product range is constantly updated and listed in TecDoc and can be ordered via TecCom. On HÜCO branded products costumers receive a 5-year-warranty* which is absolutely unique to the entire independent aftermarket.

The strategic orientation of Hitachi Automotive Systems Espelkamp GmbH is based on the growing quality demands of the independent aftermarket. The manufacturing and selling of high quality automotive spare parts is a challenge our company has successfully faced for more than 35 years. As an ISO 9001 certified company (in India also TS 16949 certified) we supply OE, OES and wholesale customers all over the world.

Within the field of electrical and electronics spare parts, Hitachi Automotive Systems Espelkamp GmbH offers two distinct and well-known brand names: Hitachi and HÜCO. In addition a third group brand - TOKICO - is also actively marketed within the field of shock absorbers. Hitachi customers therefore have the advantage of three strong brands available from one source, a reliable partner and a high quality constantly growing product range.

Le groupe Hitachi, dont le siège principal est à Tokio au Japon, est leader mondial dans différents secteurs économiques de l'industrie, avec un chiffre d'affaires annuel global de plus de 90 milliards d'Euros. Le secteur Hitachi Automotive Systems contribue pour une large part au chiffre d'affaires global, avec environ 9 milliards d'euros par an.

Avec près de 60 sites dans le monde entier, le secteur d'activités Hitachi Automotive Systems compte parmi les acteurs majeurs de cette branche, à l'échelle mondiale.

Dès janvier 2012, HÜCO Automotive GmbH a été racheté par le groupe Hitachi qui recherchait un centre de compétences sur le marché de seconde monte en Europe et en Afrique et a trouvé en Hüco ce partenaire stratégique. De cette fusion est née en avril 2015 une nouvelle entreprise qui s'appellera dorénavant Hitachi Automotive Systems Espelkamp GmbH.

Malgré son appartenance au groupe, Hitachi Automotive Systems Espelkamp GmbH a conservé son caractère d'entreprise de moyenne envergure, ce qui la met en mesure d'anticiper avec rapidité et flexibilité les exigences du marché et les besoins des clients et de les mettre en œuvre sous forme de produits et de services.Ainsi, la totalité de la palette de produits de l'entreprise est disponible en permanence sur la plateform TecDoc et peut être commandée par la plateforme afférente TecCom. Pour les produits de la marque HÜCO, les clients bénéficient d'une garantie de 5 ans* généralement inhabituelle sur ce marché.

La stratégie de Hitachi Automotive Systems Espelkamp GmbH s'oriente sur les exigences de qualité croissantes du marché international de seconde monte. La fabrication et la vente de produits automobiles de haute qualité sont les défis auxquels notre entreprise fait face avec succès depuis 35 ans environ. En tant qu'entreprise certifiée ISO9001 ainsi que certifiée TS 16949 sur le site indien, nous approvisionnons notamment des clients OE et OES dans le monde entier.

Avec Hitachi et HÜCO, l'entreprise Hitachi Automotive Systems Espelkamp GmbH unit deux grandes marques à succès parfaitement établies sur le marché, ce qui la met en mesure de proposer un choix sans précédent sur le marché de seconde monte. Par ailleurs, TOKICO, troisième marque du groupe, est aussi commercialisée activement.
Ainsi, les clients Hitachi bénéficient de trois marques fortes et attrayantes, d'un partenaire fiable et d'une gamme de produits de qualité en croissance constante.

*conformément à nos CGV

Hitachi Ltd. con sede en Tokio (Japón) es un líder mundial en differentes sectores industriales con una facturación de aproximadamente 90 mil milliones euro en total. El sector de automoción contribuye una gran parte de esta facturación con un volumen de ventas anuales de 9 mil milliones euro.

Con casi 60 plantas de producción en todo el mundo Hitachi Automotive Systems es una de las empresas multinacionales en esto sector industrial.

En Enero de 2012 el grupo Hitachi ha adquirido HÜCO Automotive GmbH. En busca de un centro de competencia para el mercado de recambios en Europa y África, Hitachi ha encontrado un socio ideal. La adquisición exitosa ha llevado al cambio del nombre a Hitachi Automotive Systems Espelkamp GmbH en Abril de 2015.

A pesar de ser parte de un grupo multimillionario, Hitachi Automotive Systems Espelkamp GmbH todavía es una empresa mediana que ha mantenido su rapidez y su flexibilidad para descubrir las demandas de un mercado individual y aplicarlas en nuestros productos y servicios. Nuestra gama de productos es visible y constantemente actualizada en TecDoc. Además los clientes pueden hacer sus pedidos directamente en TecCom. Los productos de HÜCO tienen una garantía de 5 años* que es único en todo el mercado de recambios.

La orientación estratégica de Hitachi Automotive Systems Espelkamp GmbH se basa en la creciente demanda de calidad en el mercado de recambios. La fabricación y la venta de los recambios automovilísticos de alta calidad es un reto que hemos enfrentado con éxito desde hace más de 35 años. Como empresa certificada con ISO 9001 (la ubicación en India es certificada con TS 16949) suministramos a OE, OES y empresas mayoristas en todo el mundo.

Hitachi Automotive Systems Espelkamp GmbH ofrece a los clientes dos marcas fuertes y conocidas: Hitachi y HÜCO – reputadas por una alta calidad. Además vendemos también la marca TOKICO, conocida en el campo de los amortiguadores.

Así los clientes pueden aprovechar de tres marcas fuertes, un socio confiable y una gama de productos de alta calidad y en constante crecimiento.

Концерн Hitachi, головной офис которого находится в японской столице Токио, является мировым лидером в различных отраслях экономики и имеет общий годовой оборот в размере более чем 90 миллиардов евро. При этом компания Hitachi Automotive Systems с годовым оборотом около 9 миллиардов евро вносит существенный вклад в общую прибыль группы.

Hitachi Automotive Systems насчитывает почти 60 региональных подразделений и по праву считается одним из ключевых игроков в своей отрасли.

Ещё в 2012 году, в рамках создания специализированного центра послепродажного обслуживания в Европе и Африке, концерн Hitachi приобрёл компанию HÜCO Automotive GmbH, которая и стала основой этой новой структуры. В результате успешного объединения усилий, на рынке появилось предприятие с новым названием – Hitachi Automotive Systems Espelkamp GmbH.

Несмотря на принадлежность к концерну, Hitachi Automotive Systems Espelkamp GmbH продолжает сохранять лучшие черты предприятия средних размеров, то есть динамичность и гибкость, способность распознавать потребности рынка и запросы клиентов, а также отвечать на них новой продукцией и современными сервисными услугами. Полный и всегда актуальный ассортимент предприятия представлен и в поисковой системе запасных частей TecDoc, который можно заказать с помощью соответствующей платформы TecCom. На изделия марки HÜCO клиентам предоставляется уникальная в своём роде пятилетняя гарантия качества*.

Основной вектор стратегического развития Hitachi Automotive Systems Espelkamp GmbH ориентируется на постоянно возрастающие глобальные требования к качеству послепродажного обслуживания. Производство и сбыт высококачественной автомобильной продукции – это тот самый вызов, который наше предприятие вот уже 35 лет принимает с неизменным успехом. Компания имеет сертификацию согласно ISO 9001, а её индийское подразделение обладает и сертификатом TS 16949. В этом качестве предприятие осуществляет поставки своих изделий по всему миру, в том числе и клиентам, работающим с оригинальной продукцией и по стандартам ведущих автопроизводителей. Hitachi Automotive Systems Espelkamp GmbH – это единство двух успешных рыночных брендов, Hitachi и HÜCO, совокупный ассортимент которых не знает себе равных во всей отрасли послепродажного обслуживания. Кроме того, большой популярностью пользуется и третья марка концерна – TOKICO.

Таким образом, клиенты Hitachi могут пользоваться всеми преимуществами, обусловленными популярностью и привлекательностью трёх брендов, надёжностью корпоративного партнёра, а также постоянно расширяющимся ассортиментом продукции.

Con riserva di modifiche tecniche - Se reserva el derecho de modificaciones técnicas

Eine Zündspule transformiert die 12V Batteriespannung auf die erforderliche hohe Zündspannung und gibt die dabei gespeicherte Zündenergie an die Zündkerze ab.

Eine Zündspule besteht im Prinzip aus zwei Wicklungen, die Sekundärwicklung (sehr viele Wicklungen) und die Primärwicklung (sehr wenig Wicklungen).

Durch das damit vorhandene Wickelverhältnis zwischen Sekundär- und Primärwicklung, kann mithilfe des sich intern aufbauenden Magnetfeldes die Batteriespannung von 12V auf über 20kV hoch transformiert werden.

Ausfallursachen:
- Interne Kurzschlüsse / Kontaktfehler
- Thermische Überlastung
- Mechanische Beschädigung
- Defektes Zündmodul

Anzeichen für Störungen:
- Zündfunke fehlt, Motor springt nicht an
- Zündaussetzer
- Motorkontrolle leuchtet
- Leistungsverlust und schlechte Beschleunigung

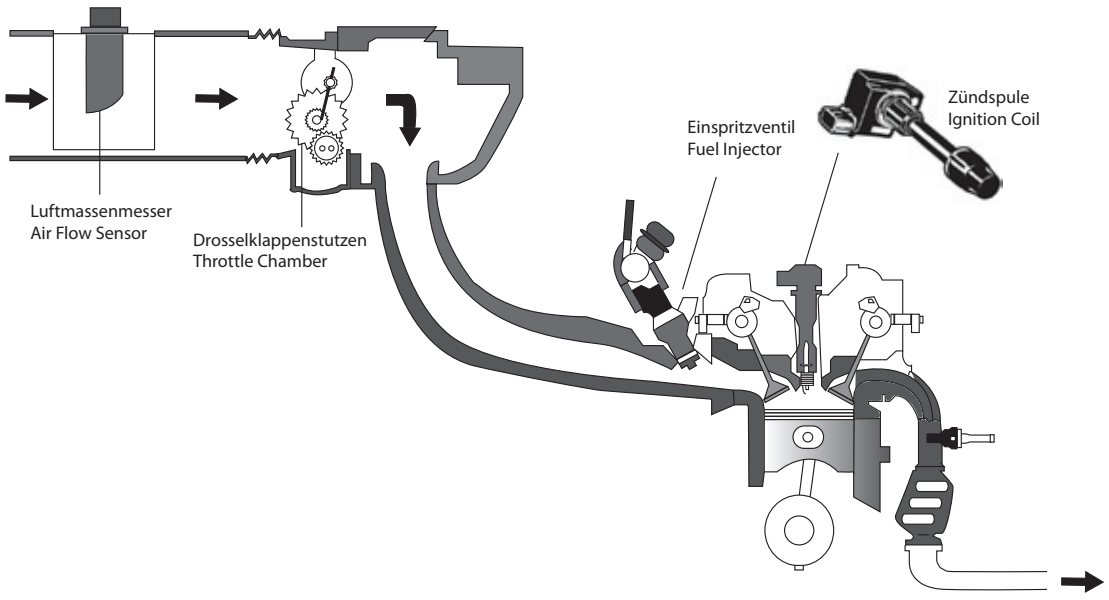

An ignition coil is a component that transforms the 12V battery voltage to the required ignition voltage and leads the saved ignition energy to the spark plugs.

The ignition coil consists of two coils – primary coil (less number of windings) and secondary coil (plenty number of windings.

The thereby existing winding ratio between primary and secondary coil allows a magnetic field to arise internally. With the aid of this magnetic field the battery voltage is transformed from 12V to over 20kV.

Failure causes:
- Internal short-circuits
- Thermal overload
- Mechanical defects
- Defective ignition module

Indication of interference:
- Ignition spark is missing, engine does not start
- Misfire
- Malfunction indicator light is active
- Loss of power and bad acceleration

Bobine d‘allumage
Bobina de encendido

Une bobine d’allumage transforme la tension de batterie de 12V en haute tension d’allumage requise délivrant ainsi l’énergie emmagasinée à la bougie d’allumage.

Une bobine d’allumage se compose en principe de deux bobinages, le bobinage secondaire (très nombreux bobinages) et le bobinage primaire (très peu de bobinages).

Grâce à ce rapport d’enroulement ainsi existant entre le bobinage secondaire et primaire, il est possible, comme dans un transformateur, à l’aide du champ magnétique qui se constitue en interne, de transformer la tension de la batterie de 12 volts à plus de 20 kilovolts.

Origines des défaillances :
- Courts-circuits internes / faux contacts
- Surcharge thermique
- Dommage mécanique
- Module d’allumage défectueux

Symptômes de dysfonctionnement :
- Pas d’étincelle d’allumage, le moteur ne démarre pas
- Ratés d‘allumage
- Contrôle moteur allumé
- Perte de puissance et mauvaise accélération

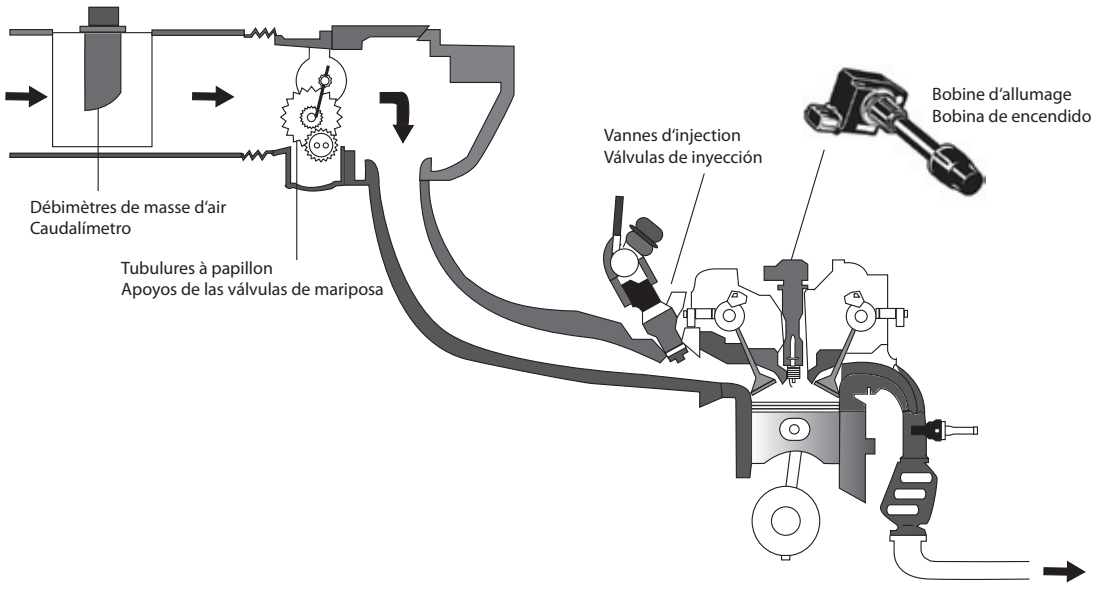

La bobina de encendido transforma la tensión de servicio de 12V en la tensión de encendido necesaria y pasa la energía de encendido acumulada a la bujía.

La bobina de encendido consta, en principio, de dos tipos de bobinados, el secundario (con muchísimas vueltas) y el primario (muy pocas vueltas).

Por medio de la proporción de boninados o vueltas así dada, entre boninado secundario y primario, como en un transformador y sirviéndose del campo magnético que se genera, puede transformarse (elevarse) la tensión de la batería de 12V a más de 20kV.

Causas del fallo:
- Cortocircuitos internos / fallos de contacto
- Sometimiento a excesiva carga térmica
- Daño mecánico
- Módulo de encendido defectuoso

Indicios de disfunción:
- Falta la chispa de encendido, el motor no arranca
- Fallos del encendido
- Se ilumina el piloto de control del motor
- Pérdida de potencia y mala aceleración

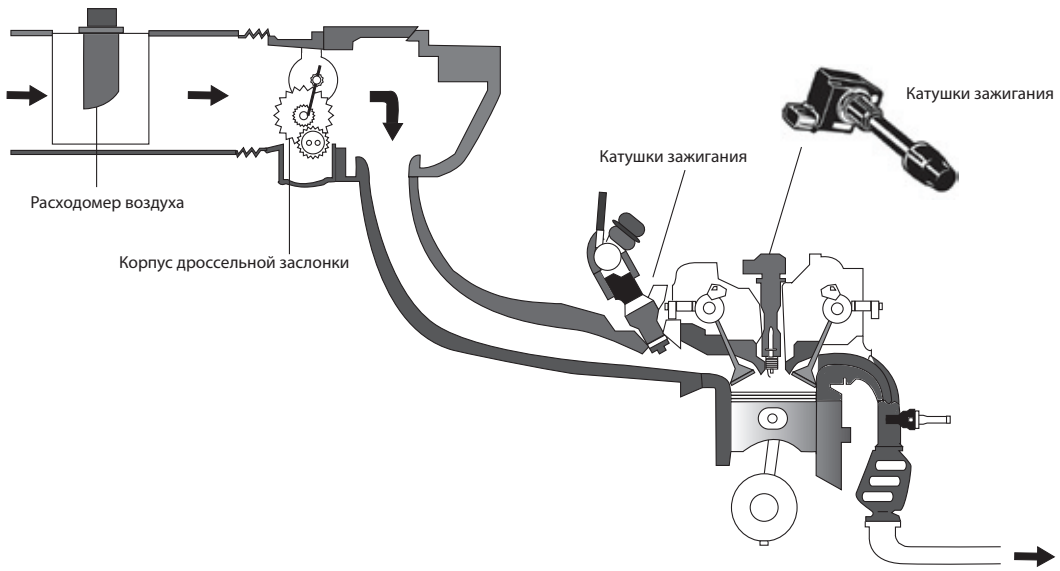

Катушки зажигания преобразуют напряжение батареи 12Вт до требуемого высокого напряжения тока, необходимого для свечей зажигания. Катушки зажигания состоят, в принципе, из двух обмоток: из вторичных (очень большое количество обмоток) и первичных (очень небольшое количество обмоток). Благодаря этому соотношению между вторичной и первичной обмоткой напряжение батареи может быть преобразовано как в трансформаторе с помощью индуцированного внутри магнитного поля с 12Вт до более чем 20кВт.

Причины выхода из строя:

- Внутренние короткие замыкания / плохой контакт
- Тепловая перегрузка
- Механическое повреждение
- Неисправный модуль зажигания

Признаки неполадок:

- Отсутствует искра, двигатель не заводится
- Пропуски искрообразования
- Загорается сигнал контроля двигателя
- Потеря мощности и плохой разгон

Zündmodule steuern den zeitlichen Vorgang der Spannungstransformation von 12V (Batteriespannung) auf über 20kV (Zündspannung), welche durch die Zündspule erzeugt wird. Seinen Impuls bekommt das Zündmodul entweder von einem „induktiven Sensor“ (Pick-Up) oder einem Hall-Sensor.

Die Module beinhalten zusätzliche elektronische Komponenten, um Funktionen wie Schließwinkelregelung, Primärstromregelung und / oder z.B. eine Stillstandsabschaltung zu realisieren. Im Gegensatz dazu gibt es noch die sogenannten Zünd-Endstufen, welche lediglich einen elektronischen Schalter darstellen.

Ausfallursachen:
- Interne Kurzschlüsse
- Thermische Überlastung
- Defekte Zündspule

Anzeichen für Störungen:
- Zündfunke fehlt, Motor springt nicht an
- Zündaussetzer
- Motor springt im kalten Zustand an und geht im warmen Zustand wieder aus

Ignition modules control the timed process of the voltage transformation from 12V (battery voltage) up to 20kV (ignition voltage), which is provided by the ignition coil. The ignition module gets its pulse whether from an inductive Pick-Up sensor or from a hall-sensor.

The modules contain additional electronic components to implement functions such as Regulation of the dwell angle and primary current or downtime switch off. In opposition to the modules ignition amplifiers are only electronic switches.

Failure causes:
- Internal short-circuits
- Thermal overload
- Defective ignition coil

Indication of interference:
- Ignition spark is missing, engine does not start
- Misfire
- Engine starts in cold condition and shuts off again in warm condition

Les modules d’allumage pilotent le processus temporel de transformation de la tension de 12V (tension batterie) à plus de 20kV (tension d’allumage), générée par la bobine d’allumage.

Ils comprennent également ce qu’on appelle les étages finals d’allumage, qui représentent un interrupteur électronique. En revanche, les modules d’allumage renferment des composants électroniques supplémentaires, pour exécuter des fonctions telles que le réglage de l’angle de fermeture, le réglage du courant primaire et / ou par ex.une coupure à l’arrêt.

Le module d’allumage reçoit une impulsion soit d’un « capteur inductif » (Pick-up) soit d’une sonde de Hall.

Origines des défaillances:
- Courts-circuits internes
- Surcharge thermique
- Bobine d’allumage défectueuse

Symptômes de dysfonctionnement:
- Absence d’étincelle d’allumage, le moteur ne démarre pas
- Ratés d‘allumage
- Le moteur démarre à froid et s’arrête à nouveau une fois chaud

Los módulos de encendido controlan el proceso cronológico de la transformación de la tensión de 12V (tensión de servicio) a más de 20 kV (tensión de encendido) generada por la bobina de encendido.

En la zona de los módulos de encendido se encuentran también los llamados niveles finales del encendido, que vienen a ser un interruptor electrónico. Por otra parte, los módulos de encendido cuentan también con componentes electrónicos adicionales para realizar funciones como la regulación del ángulo de cierre, regulación de la corriente primaria y / o, por ejemplo, una desconexión de parada.

El módulo de encendido recibe su impulso bien de un „sensor inductivo„ (pick up) o un sensor de reverberación.

Causas del fallo:
- Cortocircuitos internos
- Sometimiento a excesiva carga térmica
- Bobina de encendido defectuosa

Indicios de disfunción:
- Falta la chispa de encendido, el motor no arranca
- Fallos del encendido
- El motor arranca estando frío y se para al calentarse

Модули зажигания

Модули зажигания управляют процессом преобразования напряжения 12Вт (напряжение аккумуляторной батареи) в напряжение более 20кВт (напряжение зажигания), индуцируемое катушкой зажигания. Свой импульс модуль зажигания получает либо от „индуктивного датчика„ (Pick-Up), либо датчика Холла.

Модули содержат дополнительные электронные компоненты, чтобы реализовать такие функции, как регулирование угла замкнутого состояния, регулирование первичного тока и / или, например, отключение в режиме холостого хода. В отличие от этого, есть еще так называемые усилители зажигания, которые представляют собой электронный переключатель.

Причины выхода из строя:
- Внутренние короткие замыкания
- Тепловая перегрузка
- Неисправная катушка зажигания

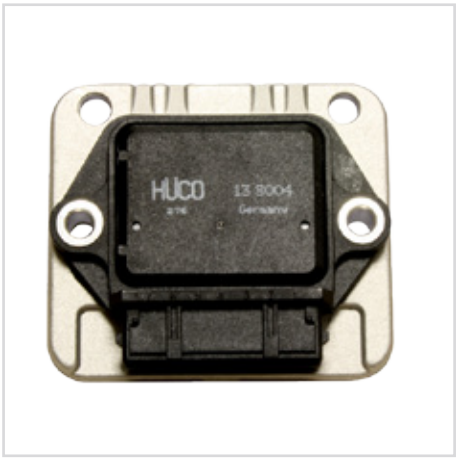

Признаки неполадок:
- Искра отсутствует, двигатель не заводится
- Пропуск искрообразования
- Двигатель заводится в холодном состоянии и отключается в прогретом состоянии

Con riserva di modifiche tecniche - Se reserva el derecho de modificaciones técnicas

Hochdruckpumpen werden bei modernen Motoren mit Benzindirekteinspritzung verwendet. Eine Benzindirekteinspritzung hat die Vorteile, dass sich bei gleichem Hubraum ein höheres Drehmoment und damit auch eine höhere Leistung einstellt. Der Motor reagiert besser auf Gaspedaländerungen und im Teillastbetrieb wird eine messbare Verbrauchseinsparung festgestellt.

Die Hochdruckpumpe wird von der Kraftstoffpumpe mit einem Druck von etwa 6 bar versorgt und fördert das Benzin mit einem Druck von bis zu 250 bar zur Kraftstoffverteilerleiste. Die Pumpe sitzt direkt am Motor, da ihr Antrieb mechanisch ist. Sie wird durch einen zusätzlichen Nocken der Einlassnockenwelle angetrieben.

Ausfallursachen:
- Undichtigkeiten durch hohen Betriebsdruck
- Mechanischer Verschleiß

Anzeichen für Störungen:
- Der Motor hat Aussetzer
- Es tritt ein Leistungsverlust auf
- Komplettausfall des Motors

High Pressure Pumps are used in modern gasoline engines with direct injection. The advantage of a gasoline direct injection is the achievement of a higher torque with the same cubic capacity and thus an increased performance. The engine better reacts to changes of the gas-pedal position and a measurable amount of fuel savings can be realized in partial-load operation.

The HPP is supplied with fuel by the fuel pumps at a pressure of approx. 6 bar (87 psi) and boosts the fuel to a pressure up to 250bar (3626 psi) into the common rail. The pump is positioned directly within the engine, because the drive mechanism is mechanical. The pump is operated via an extra cam on the intake camshaft.

Failure causes:
- Leakage caused by high operating pressure
- Mechanical wear

Indication of interference:
- General stuttering of the engine
- Decreased power
- Total breakdown of the engine

Dans les moteurs modernes, des pompes haute pression sont utilisées pour l'injection directe d'essence. L'avantage de cette injection directe est que pour une même cylindrée un couple plus élevé et donc une puissance plus élevée se règle. Le moteur réagit mieux aux changements de la pédale d'accélération et lors du fonctionnement en charge partielle on constate une économie de carburant mesurable.

La pompe haute pression est alimentée par la pompe à carburant avec une pression d'environ 6 bars et achemine l'essence avec une pression allant jusqu'à 250 bars jusqu'à la rampe d'injection. La pompe se trouve directement sur le moteur, puisque son entraînement n'est pas électrique mais mécanique et elle est entraînée par une came supplémentaire de l'arbre à cames d'admission.

Origines des défaillances:
- Fuites par pression élévée
- Usure mécanique

Symptômes de dysfonctionnement:
- Le moteur présente des défaillances intermittentes
- Perte de puissance
- Défaillance complète du moteur

Las bombas de alta presión se emplean en los motores modernos con inyección directa de gasolina. La inyección directa de gasolina cuenta con la ventaja de que, con la misma cilindrada, se consigue con ellas un par de giro superior y, por ende, una potencia también superior. El motor reacciona mejor a los cambios del acelerador y en el servicio de carga parcial se constata una reducción mensurable de consumo.

La bomba de alta presión es abastecida por la bomba de combustible de una presión de unos 6 bares y facilita la gasolina al riel de combustible con una presión de hasta 250 bares. La bomba se asienta directamente en el motor, ya que su accionamiento no es eléctrico sino mecánico y es propulsado por una leva adicional del árbol de levas de suministro.

Causas del fallo:
- Fugas por presión de servicio elevada
- Desgaste mecánico

Indicios de disfunción:
- El motor sufre paradas
- Tiene lugar una pérdida de potencia
- Fallo completo del motor

Насосы высокого давления

Насосы высокого давления используются в современных бензиновых двигателях с прямым впрыском. Прямой впрыск бензина имеет то преимущество, что при равном объеме двигателя достигается больший крутящий момент, а также увеличивается мощность. Двигатель лучше реагирует на изменения положения педали газа и в режиме частичной нагрузки достигается значительная экономия топлива.

В насос высокого давления топливо поступает от подкачивающего насоса под давлением приблизительно 6 бар. Затем бензин подается под давлением до 250 бар к блоку распределения топлива. Насос расположен прямо на моторе, так как его привод механический. Насос приводится в действие дополнительным кулачком впускного распределительного вала.

Причины выхода из строя:
- Негерметичность вследствие высокого рабочего давления
- Механический износ

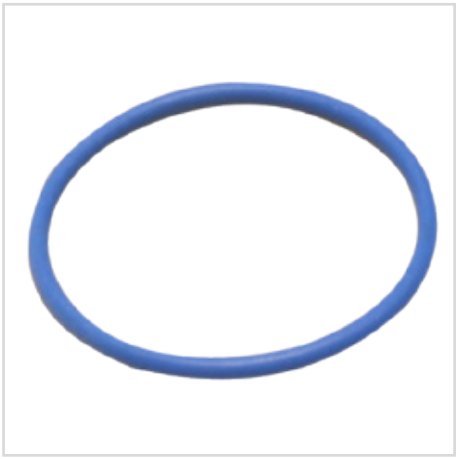

Признаки неполадок:
- Сбои в работе двигателя
- Снижение мощности
- Полная поломка двигателя

Con riserva di modifiche tecniche - Se reserva el derecho de modificaciones técnicas

Die Aufgabe des Einspritzventils ist es, den Kraftstoff zu dosieren und ihn zu zerstäuben. Dadurch soll eine homogene Vermischung von Kraftstoff und Luft im Brennraum erzielt werden. Die Ansteuerung des Ventils erfolgt direkt durch das Motorsteuergerät.

Das Einspritzventil ist ein Magnetventil, welches geöffnet wird, sobald eine Ansteuerspannung anliegt. Dadurch wird eine Magnetspule im Inneren unter Spannung gesetzt, was dazu führt, dass sich die Ventilnadel hebt und den Weg für den Kraftstoff frei gibt.

Ausfallursachen:
- Undichtigkeit durch poröse Dichtungen
- Verstopftes Filtersieb

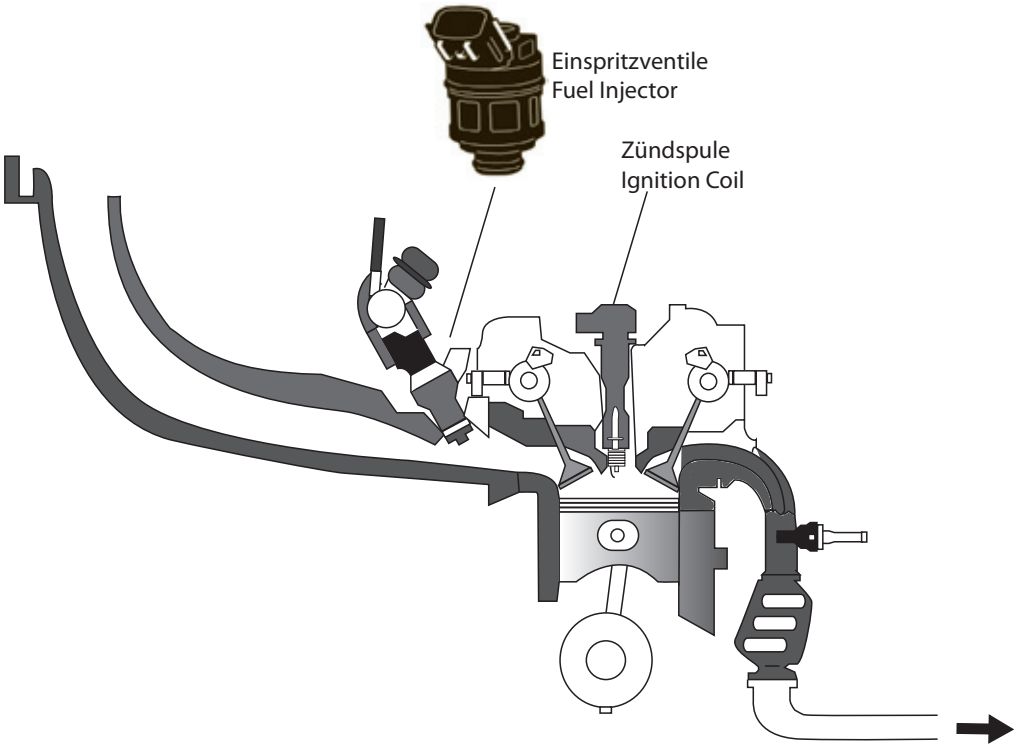

Anzeichen für Störungen:
- Unruhiger Leerlauf
- Probleme beim Starten des Motors
- Verschlechterung der Abgaswerte

The task of a fuel injector is to supply atomized fuel into the engine. The goal is to create an optimum mixture of fuel and air within the combustion chamber. The fuel injector itself is directly controlled by the engine control unit (ECU).

The fuel injector itself is a solenoid valve which opens once voltage is applied to it. When the injector is energized an electromagnet moves a plunger that opens the valve, allowing pressurized fuel to squirt out a tiny nozzle.

Failure causes:
- Leakage caused by porous seals
- Blocked strainer

Indication of interference:
- The idle speed becomes unstable
- The engine is difficult to start
- Exhaust gas emissions increase

Vannes d'injection
Válvulas de inyección

Le rôle de la buse d'injection est de doser le carburant et de le pulvériser. Ceci afin d'obtenir un mélange homogène de carburant et d'air dans la chambre de combustion. L'amorçage de la buse d'injection s'effectue directement via l'appareil de commande du moteur. C'est là qu'est générée une tension de commande de 50 - 90 volts. Cette tension élevée est nécessaire pour permettre une durée d'injection très courte.

La buse d'injection est une électrovanne qui s'ouvre dès qu'une tension de commande est en présence. Une aiguille située dans la buse est enfoncée dans le siège de soupape au moyen d'un ressort précontraint. Dès que la buse d'injection est amorcée, une bobine magnétique à l'intérieur est mise sous tension. Ce qui soulève l'aiguille de son siège et libère la voie pour le carburant.

Origines des défaillances:
- Fuites par joints poreux
- Tamis filtrant bouché

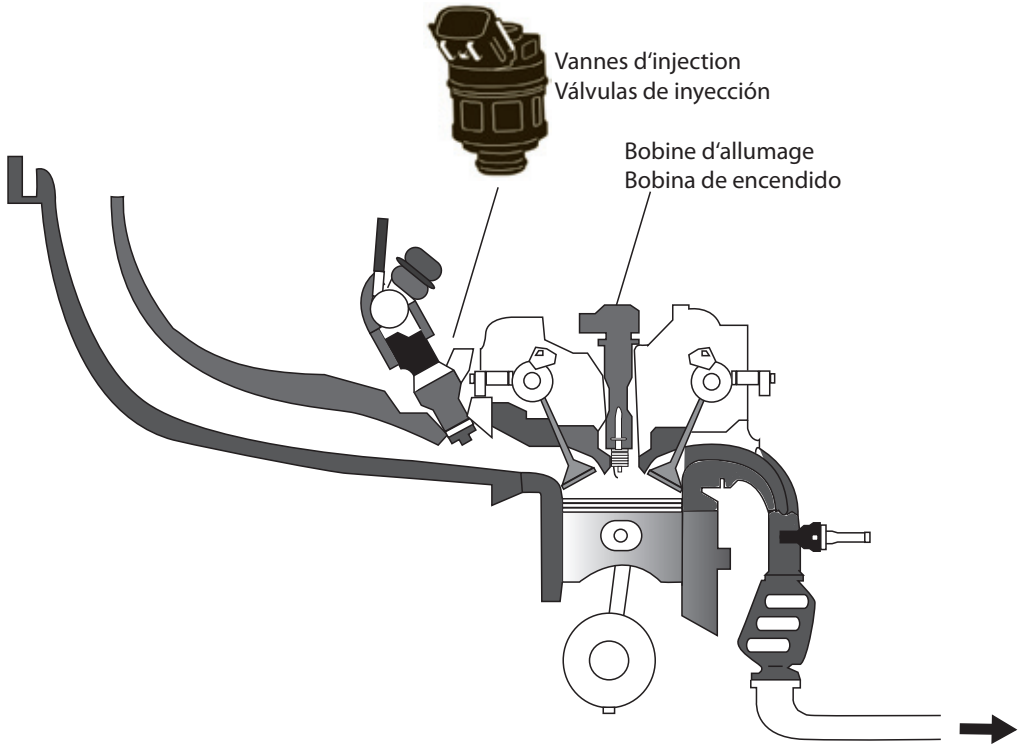

Symptômes de dysfonctionnement :
- Ralenti irrégulier
- Problèmes au démarrage du moteur
- Aggravation des émissions polluantes

El cometido del inyector es la dosificación y pulverización del combustible. De este modo debe conseguirse una mezcla homogénea de combustible y aire en la cámara de combustión. El control del inyector tiene lugar directamente a través del dispositivo de control del motor. Se genera allí una tensión de control de 50 a 90 voltios. Esta alta tensión es necesaria para que sea posible un brevísimo tiempo de inyección.

El inyector es una válvula electromagnética que se abre tan pronto como se da una tensión de control. En la boquilla se empuja una aguja en el asiento de la válvula a través de un resorte previamente tensado. Tan pronto como el inyector se controla, se somete a tensión una bobina magnética del interior. De este modo la aguja de la válvula se eleva de su asiento y deja vía libre al combustible.

Causas del fallo:
- Fugas por juntas porosas
- Tamiz filtrante taponado

Indicios de disfunción:
- Marcha del motor en ralentí intranquila
- Problemas al arrancar el motor
- Empeoramiento de los valores del aire de escape

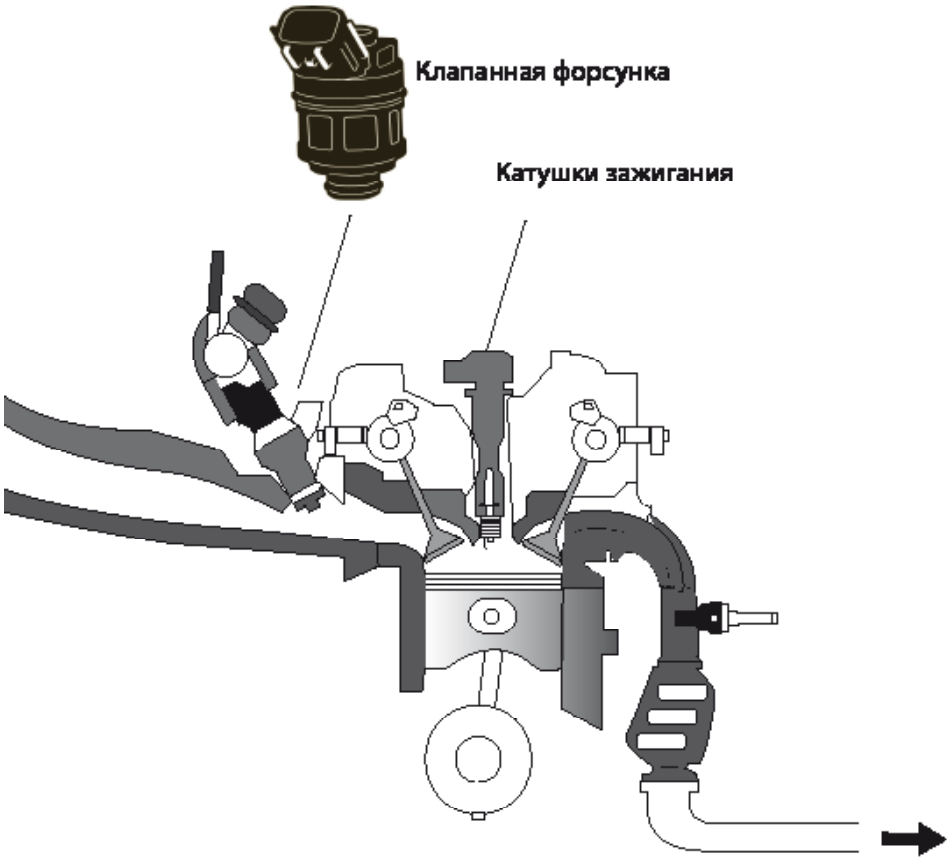

Задачей клапанной форсунки является дозирование топлива и его распыление. Таким образом достигается гомогенное смешивание топлива и воздуха в камере сгорания. Управление клапана осуществляется непосредственно через блок управления двигателем.

Клапанная форсунка представляет собой электромагнитный клапан, который открывается, как только достигается необходимое напряжение. На магнитную катушку внутри подается напряжение, игла клапана поднимается и открывает путь для топлива.

Причины выхода из строя:
- Негерметичность прокладок
- Засорение сетки фильтра

Признаки неполадок:
- Неровный холостой ход
- Проблемы при запуске двигателя
- Ухудшение показателей состава выхлопных газов

Das AGR Ventil (Abgasrückführungsventil) dosiert die Menge des zurückzuführenden Abgases in die Zylinder. Dadurch wird der Sauerstoffanteil im Kraftstoff-Luft-Gemisch verringert und so die Verbrennungstemperatur in den Zylindern abgesenkt, was zu einer Reduzierung der Schadstoffe (NOx) im Abgas führt.

Bei Dieselfahrzeugen ist die Rückführungsrate von Abgasen deutlich höher, als bei Benzinfahrzeugen, was zu einer höheren Ausfallrate der AGR Ventile bei Dieselfahrzeugen führt.

Ausfallursachen:
- Überwiegender Kurzstreckenbetrieb
- Ausstehende oder verminderte Serviceintervalle
- Ungünstiger Motorzustand bzw. Verbrennungsprobleme

Anzeichen für Störungen:
- Leistungsverlust des Fahrzeugs
- Ruckeln
- Unrunder Leerlauf
- Aufleuchten der Motorkontrollleuchte

The EGR valve (exhaust gas recirculation valve) charges the amount of referable exhaust gases to the cylinder. Thereby the oxygen share in the fuel-air-ratio is lowered and thus the combustion temperature in the cylinder. This leads to a reduction of the contaminant (NOx) in the exhaust gases.

Diesel vehicles have a recirculation rate of exhaust gases that is much higher as at petrol vehicles. This leads to a higher failure rate of EGR valves at diesel vehicles.

Failure causes:
- Predominant short-run operation
- Receivable or reduced service interval
- Inappropriate condition of the engine or combustion problems

Indication of interference:
- Loss of engine power
- The idle speed becomes unstable
- Malfunction indicator light is active

La vanne EGR (soupape de réinjection des gaz d'échappement) dose la quantité de gaz d'échappement à renvoyer dans les cylindres.

Ainsi, la part d'oxygène dans le mélange carburant-air baisse et avec elle la température de combustion dans les cylindres ce qui entraîne une réduction des substances nocives (NOx) dans les gaz d'échappement.

Pour les véhicules Diesel, la proportion de gaz d'échappement réinjectés est nettement plus élevée que pour les véhicules à essence, ce qui entraîne un taux de défaillance plus élevé des vannes EGR pour les véhicules diesel.

Origines des défaillances:
- Trajets courts majoritaires
- Intervalles d'entretien en suspens ou réduits
- Etat du moteur défavorable ou problèmes de combustion

Symptômes de dysfonctionnement:
- Perte de puissance du véhicule
- A-coups
- Ralenti irrégulier
- Le voyant de contrôle du moteur s'allume

La válvula RAE (válvula de recirculación de aire de escape) dosifica la cantidad del aire de escape a los cilindros.

De este modo se reduce la proporción de oxígeno en la mezcla de aire y carburante y desciende la temperatura de combustión en los cilindros, lo cual tiene por consecuencia una reducción de las substancias nocivas (óxido de nitrógeno) en el aire de escape.

En los vehículos diesel la tasa de recirculación de aire de escape es considerablemente superior que en los vehículos de gasolina, lo cual tiene por consecuencia una mayor frecuencia de fallo de las válvulas de recirculación de aire de escape en estos vehículos.

Causas del fallo:
- Desplazamiento mayormente de trayectos cortos
- Intervalos de servicio no observados o reducidos
- Estado desfavorable del motor o bien problemas de combustión

Indicios de disfunción:
- Pérdida de potencia del vehículo
- Sacudidas
- Marcha del motor en ralentí irregular
- Iluminación del piloto de control del motor

Con riserva di modifiche tecniche - Se reserva el derecho de modificaciones técnicas

Клапан системы рециркуляции ОГ (клапан рециркуляции выхлопных газов) дозирует количество отводимых газов в цилиндры. Тем самым уменьшается содержание кислорода в топливо-воздушной смеси и таким образом понижается температура сгорания в цилиндрах, что приводит к сокращению вредных веществ (NOx) в выхлопных газах.

В дизельных транспортных средствах количество отвода выхлопных газов значительно выше, чем у автомобилей с бензиновым двигателем, что повышает процент выхода из строя клапанов EGR в автомобилях с дизельным двигателем.

Причины выхода из строя:
- Эксплуатация автомобиля преимущественно на коротких маршрутах
- Несоблюдение или сокращение техобслуживания
- Плохое состояние двигателя или проблемы сгорания

Признаки неполадок:
- Потеря мощности автомобиля
- Рывки
- Неровный холостой ход
- Загорание лампочки контроля двигателя

Con riserva di modifiche tecniche - Se reserva el derecho de modificaciones técnicas

Drosselklappen regeln den vom Motor angesaugten Luftstrom. Durch den Öffnungswinkel des Drosselklappenstutzens, der zwischen Ansaugbrücke und Lastsensor verbaut ist, verändert sich die Menge der dem Motor zugeführten Luft.

Die jeweils optimale Drosselklappen-Stellung wird vom Motorsteuergerät mithilfe der Informationen des Fahrpedals und aller weiteren zur Verfügung stehenden Daten des Motormanagements errechnet. Die elektronische Ansteuerung der Drosselklappe sorgt für eine besonders effiziente Motorsteuerung.

Ausfallursachen:
- Verschleiß der Potentiometer im Inneren
- Gebrochene Zahnräder durch Alterung des Kunststoffs
- Verschmutzung durch Blow-Back Gase

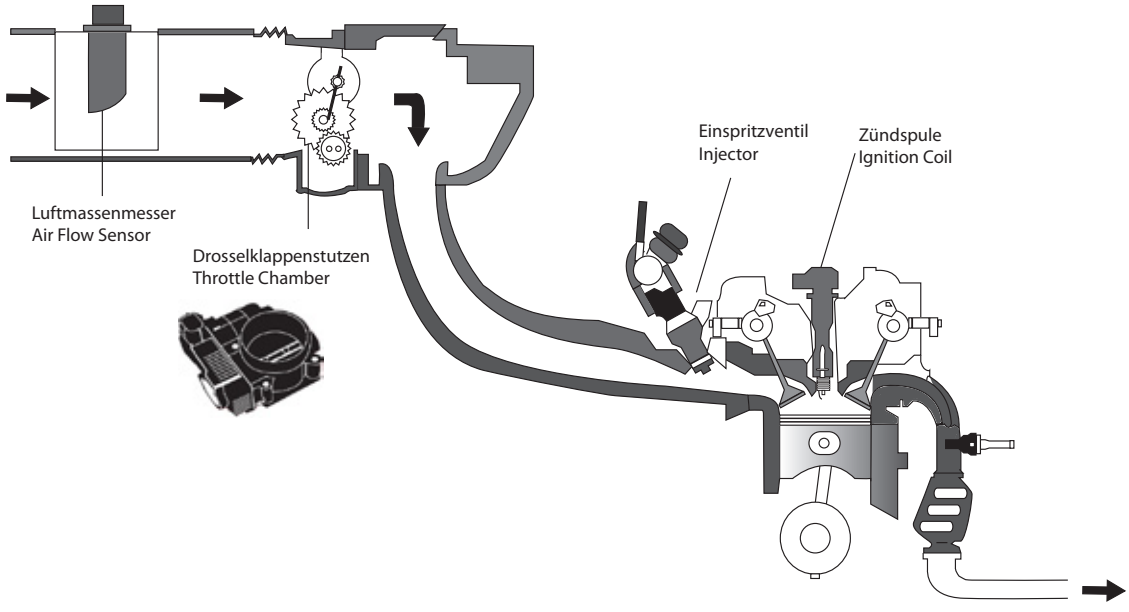

Anzeichen für Störungen:
- Der Motor hat Aussetzer beim Abbremsen
- Der Leerlauf wird unruhig
- Der Motor hat Aussetzer beim Warmlaufen oder nach Neustart
- Die Motordrehzahl fällt bei Kurvenfahrten ohne Betätigung des Gaspedals ab

Throttle bodies control the air intake of the engine. With the opening angle of the throttle flap, which is positioned between intake manifold and load sensor, the inlet of the air to the engine is changed.

The optimal throttle flap position is calculated by the engine control unit via the depression of the accelerator pedal and further signals of the engine management. The electronic control of the throttle body ensures an efficient motor control.

Failure causes:
- Wear of the built-in potentiometer
- Broken gear wheels due to aging of the plastic
- Pollution due to blow-back gases

Indication of interference:
- The engine is going to stall during deceleration
- The idle speed becomes unstable
- The engine is going to stall during warm up or restart
- The engine speed drops while running in a curve with the accelerator off

Tubulures à papillon
Apoyos de las válvulas de mariposa

Les vannes papillon régulent le flux d'air aspiré par le moteur. Par l'angle d'ouverture de la tubulure de la vanne papillon montée entre le collecteur d'admission et le capteur de charge, le mélange de carburant et d'air se modifie.

La position optimale de chacune des vannes papillon est calculée par l'appareil de commande du moteur à l'aide des informations de la pédale d'accélérateur et de toutes les autres données de gestion du moteur disponibles. Le module électronique de la vanne papillon assure une commande moteur particulièrement efficace.

Origines des défaillances:
- Usure des potentiomètres à l'intérieur
- Rupture des roues dentaire à cause du vieillissment de la matière plastique
- Salétés causées par les gaz «blow back»

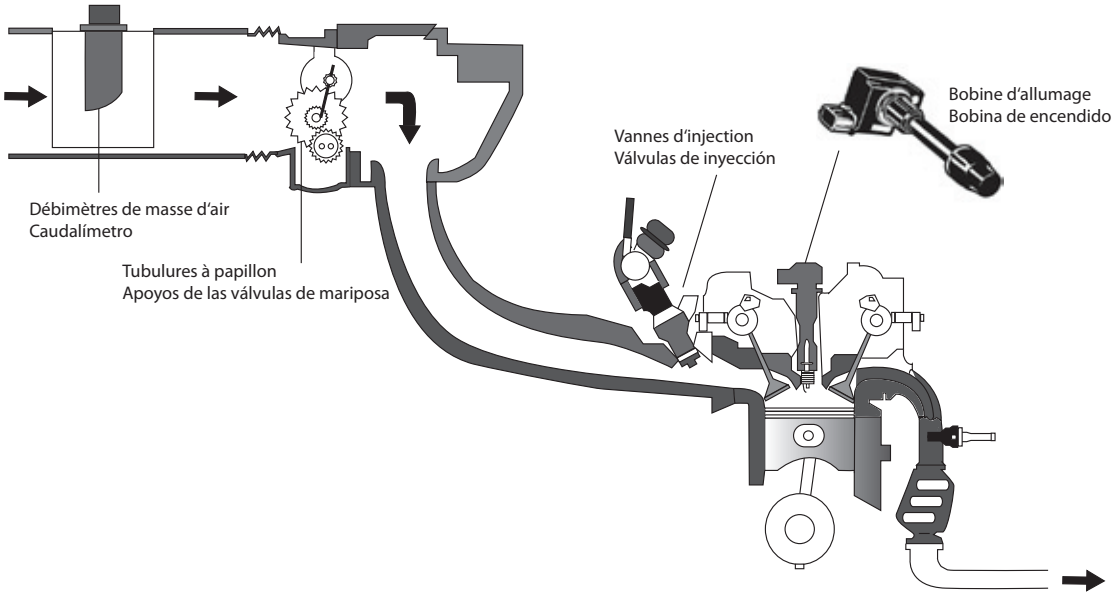

Symptômes de dysfonctionnement:
- Le moteur a des ratés au freinage
- Le ralenti devient instable
- Le moteur a des ratés en phase de chauffage ou après redémarrage
- Le régime du moteur chute dans les virages sans appuyer sur la pédale d'accélération

Las válvulas de mariposa regulan la corriente de aire aspirada por el motor. Por medio del ángulo de apertura del apoyo de las válvulas de mariposa, incorporado entre el colector de entrada y el sensor de carga, se modifica la relación de la mezcla de combustible y aire.

Sirviéndose de las informaciones del acelerador y del resto de datos procedentes de la gestión del motor, el dispositivo de control del motor calcula la posición ideal de las válvulas de mariposa en cada caso. El control electrónico de la válvula de mariposa se ocupa de una especial eficiencia del control del motor.

Causas del fallo:
- Desgaste del potenciómetro en el interior
- Rotura de las ruedas dentadas por envejecimiento del material plástico
- Ensuciamiento por los gases "blow back"

Indicios de disfunción:
- El motor sufre paradas al frenar
- La marcha del motor en ralentí se hace intranquila
- El motor sufre paradas en el calentamiento y tras un nuevo arranque
- El número de revoluciones del motor decae en las curvas sin modificarse el acelerador

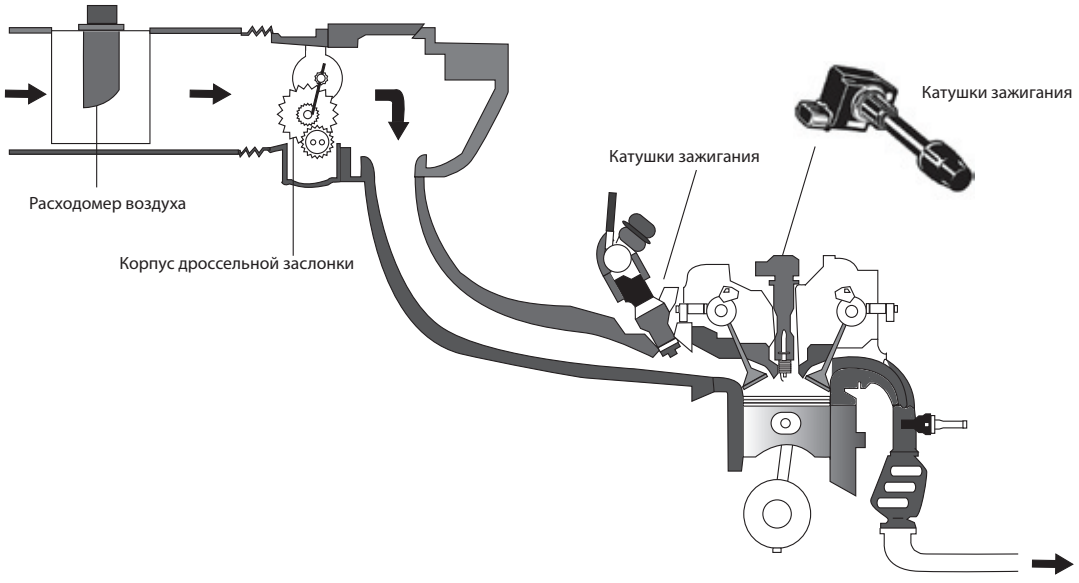

Дроссель регулирует воздушный поток, всасываемый двигателем. Количество подаваемого в двигатель воздуха изменяется в зависимости от угла открытия дроссельной заслонки, которая находится возле впускного коллектора и датчика нагрузки.

Оптимальное положение дроссельной заслонки вычисляется прибором управления двигателем с помощью информации, получаемой при нажатии педали акселератора, и всех остальных данных управления двигателем. Электронный контроль дроссельной заслонки обеспечивает эффективное управление двигателем.

Причины выхода из строя:
- Износ потенциометра внутри
- Разрушение шестерней вследствие старения пластмассы
- Загрязнение газами Blow-Back

Признаки неполадок:
- Двигатель глохнет при торможении
- Обороты холостого хода нестабильны
- Двигатель глохнет во время прогрева или после перезапуска
- Частота вращения двигателя падает при повороте с выключенным акселератором

Das Leerlaufregelventil steuert die Motordrehzahl, damit diese im Leerlauf, auch bei Veränderungen des Motorzustandes, konstant bleibt. Ohne ein Leerlaufregelventil würde ein Fahrzeug im Stand aus gehen.

Leerlaufregelventile werden sowohl in den Fahrzeugen mit Diesel- als auch mit Ottomotoren eingesetzt.

Ausfallursachen:
- Verschmutzung / Verharzung von Komponenten im Leerlaufregelventil
- Kurzschlüsse in der Spule
- Fehlfunktion des elektrischen Magnetantriebes

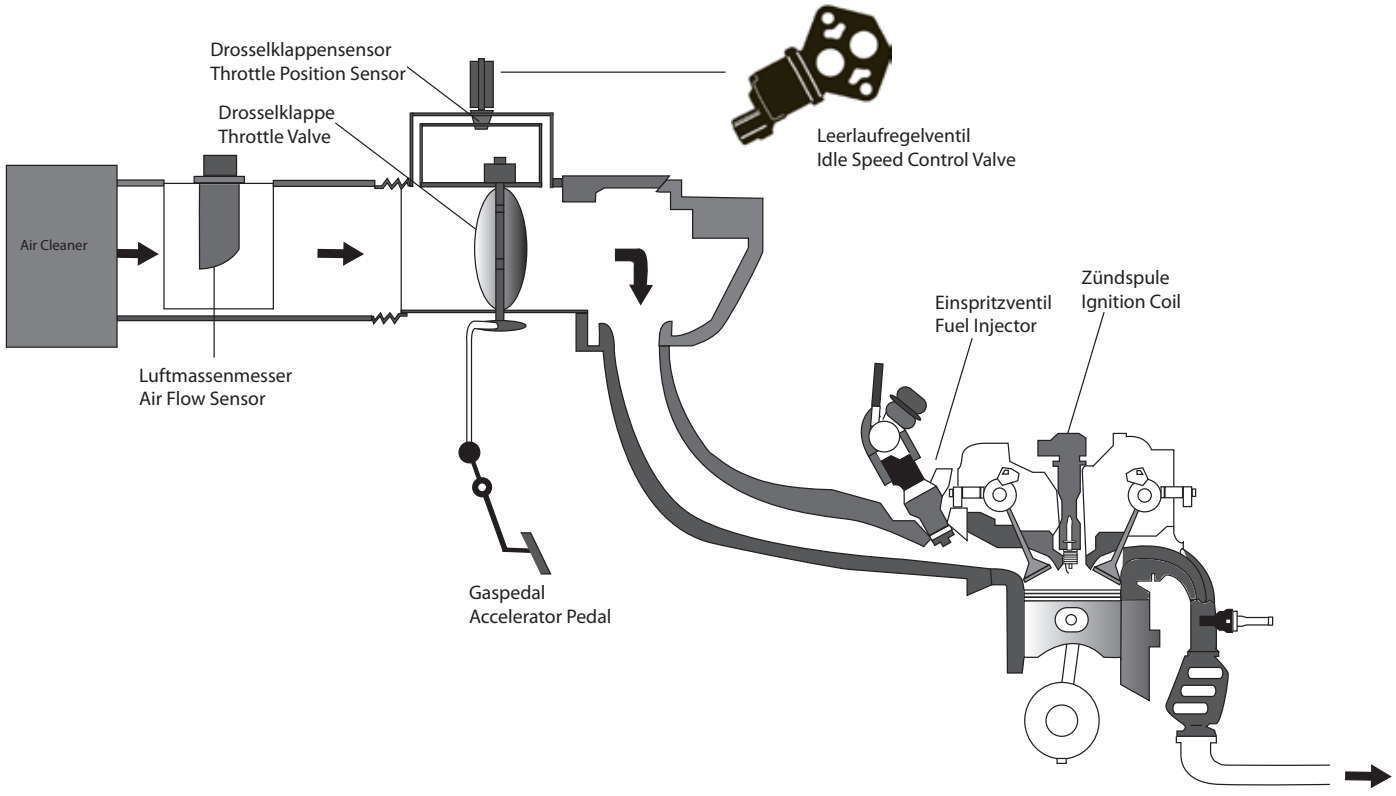

Anzeichen für Störungen:
- Schwankende Leerlaufdrehzahl
- Absterben des Motors im Leerlauf
- Aufleuchten der Motorkontollleuchte

The objective of the idle speed control valve is to ensure a constant rate of the engine speed even at changes of the engine state. Without an idle speed control valve a car would stall whilst in idle mode.

ISCV's are used in both gasoline and diesel engines.

Failure causes:
- Pollution / gumming of components
- Short-circuits inside the coil
- Malfunction of the solenoid actuator

Indication of interference:
- Idle speed becomes unstable
- Engine stalls
- Malfunction indicator light is active

La vanne de ralenti commande le nombre de tours moteur afin que celui-ci reste constant au ralenti même en cas de modifications de l'état du moteur. Sans vanne de réglage de ralenti, un véhicule s'arrêterait à l'arrêt.

Les vannes de ralenti sont installées aussi bien dans les véhicules avec des moteurs diesel que dans ceux avec des moteurs à essence.

Origines des défaillances :
- Encrassement / Résinification de composants dans la vanne de ralenti
- Courts-circuits dans la bobine
- Mauvais fonctionnement de l'électro-aimant

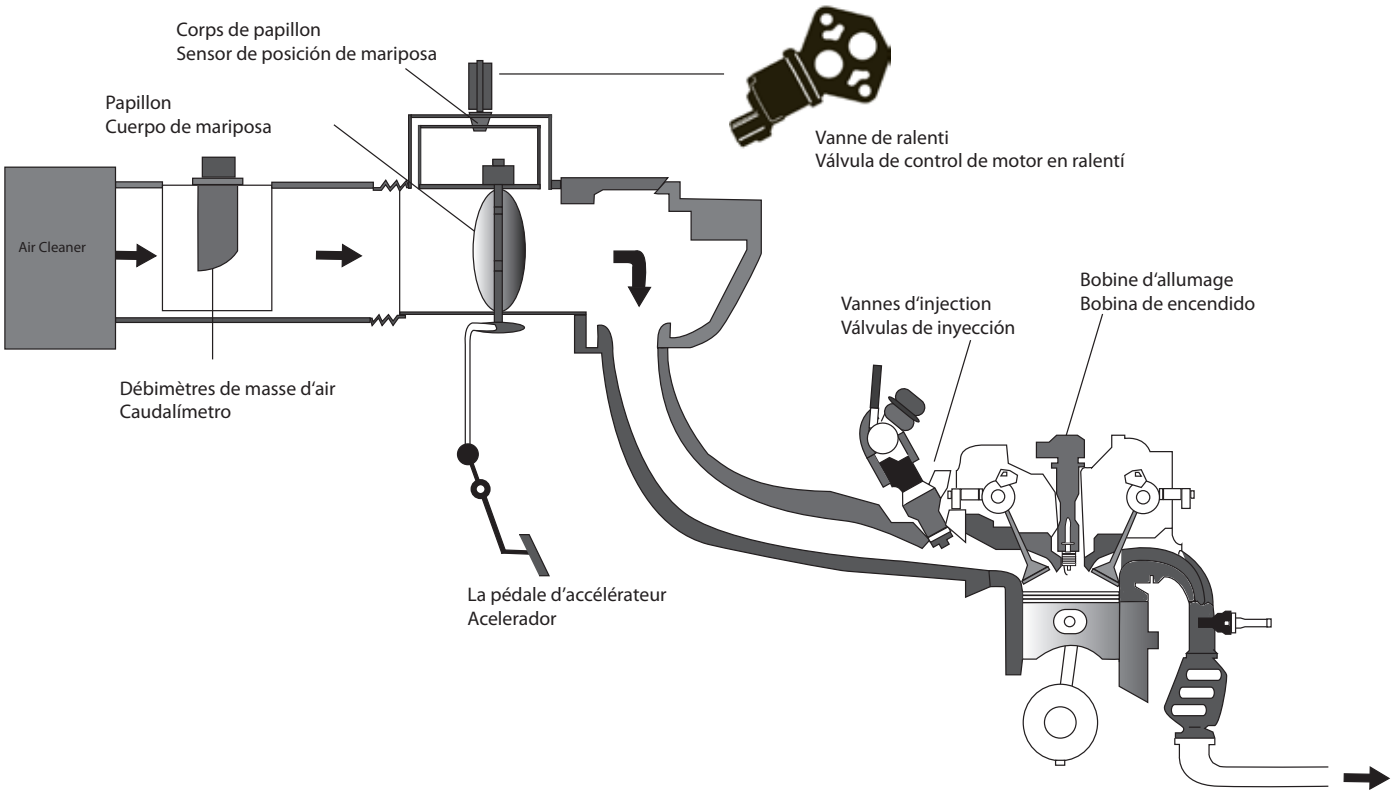

Symptômes de dysfonctionnement:
- Vitesse au ralenti fluctuante
- Arrêts moteur au ralenti
- Le voyant de contrôle du moteur s'allume

La válvula de control de motor en ralentí controla el número de revoluciones del motor de modo que permanezca constante en ralentí, incluso al darse modificaciones en el estado del motor mismo. Sin disponer de una válvula de control de motor en ralentí el motor dejaría de funcionar al detenerse el vehículo.

Las válvulas de control de motor en ralentí se emplean tanto en vehículos diesel como de gasolina.

Causas del fallo:
- Ensuciamiento / resinificación de los componentes en la válvula de control de motor en ralentí
- Cortocircuitos en la bobina
- Disfunción del accionamiento magnético eléctrico

Indicios de disfunción:
- Número de revoluciones del motor en ralentí inestable
- Parada del motor en ralentí
- Se ilumina el piloto de control del motor

Клапан регулировки холостого хода

Клапан регулировки холостого хода обеспечивает постоянную частоту вращения двигателя в режиме холостого хода и при изменениях состояния двигателя. Без клапана регулировки холостого хода автомобиль не смог бы остановиться на холостом ходу.

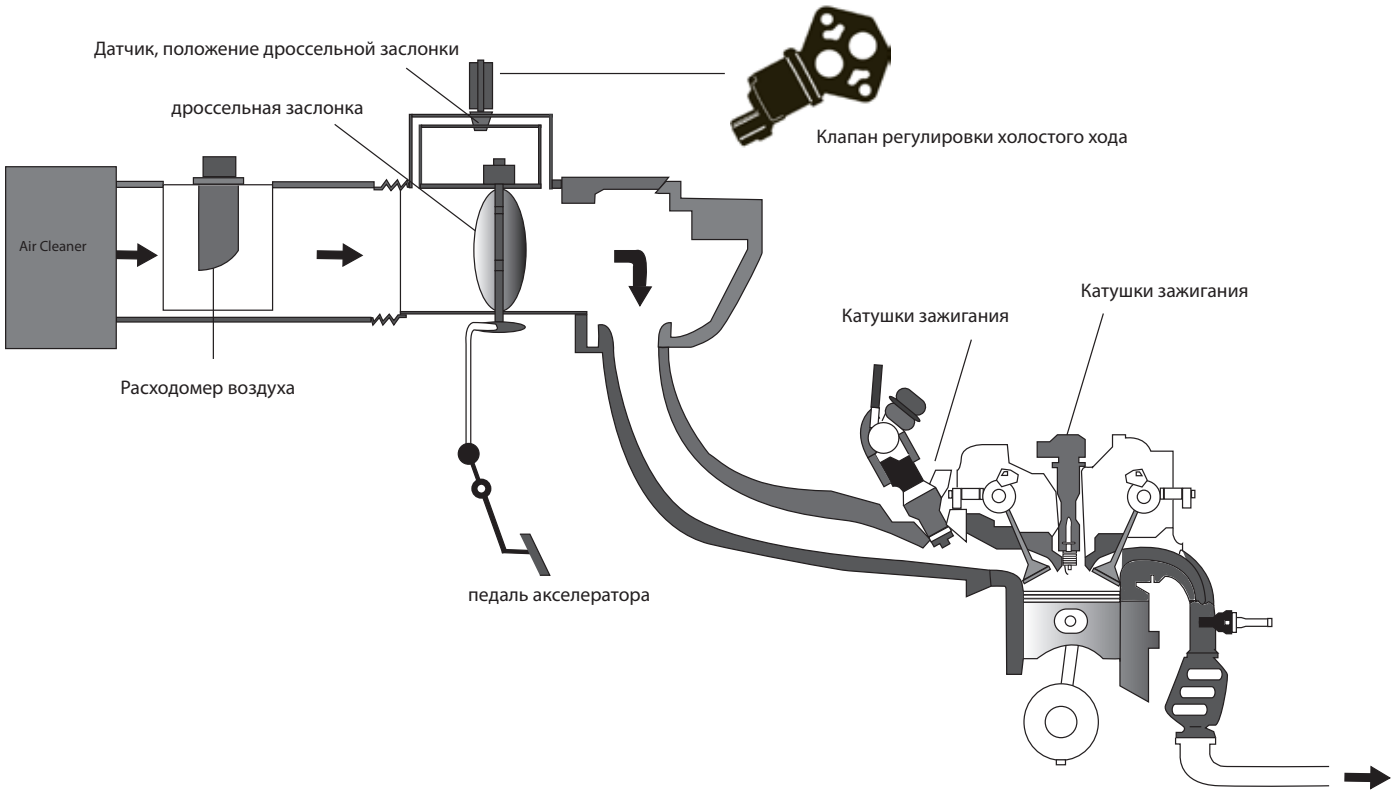

Клапаны регулировки холостого хода используются как в бензиновых так и в дизельных двигателях.

Причины выхода из строя:

- Загрязнение / замасливание компонентов клапана регулировки холостого хода
- Короткое замыкание в катушке
- Неисправность электромагнитного привода

Признаки неполадок:

- Нестабильные обороты холостого хода
- Двигатель глохнет на холостом ходу
- Загорается контрольная лампочка двигателя

OPEL	17112027	817254	
PIERBURG	705432010		

Im pneumatischen System eines Fahrzeuges gibt es Aktuatoren die zum Verstellen oder Einschalten von Ventilen oder Klappen dienen. Diese bezeichnet man als elektropneumatische Ventile.

Der grundlegende Vorteil von Unterdrucksystemen liegt darin, dass im Gegenteil zu elektrischen Systemen höhere Kräfte bei geringerer elektrischer Leistung generiert werden können. Zudem ist ein Unterdruck in nahezu jedem Fahrzeug vorhanden, wie z.B. aus der Ansaugung oder durch eine Vakuumpumpe.

Ausfallursachen:
- Eindringen von Verschmutzungen und Feuchtigkeit
- Hohe Temperaturen im Motorraum

Anzeichen für Störungen:
- Leistungsverminderung des Motors bei AGR-Systemen
- Notlauf
- Ruckeln des Fahrzeugs

The pneumatic system of a passenger car contains various actuators which are used to activate valves and flaps. The general term is electro-pneumatic actuator.

The general advantage of a vacuum system is the generation of higher forces with less electric power compared to an electrical system. Additionally, a vacuum exists in almost every vehicle, e.g. due to the suction or by a vacuum pump.

Failure causes:
- Ingress of dirt and moisture
- High temperatures in the engine compartment

Indication of interference:
- Drop in engine performance at EGR-systems
- Emergency operating mode
- Engine stuttering

Dans le système pneumatique d'un véhicule il y a des actionneurs qui servent à déplacer ou à enclencher des vannes ou des clapets. On les appelle aussi des vannes électropneumatiques.

L'avantage principal des systèmes de dépression réside dans le fait qu'il est possible de générer des forces supérieures à celles des systèmes électriques. De plus, un système de dépression existe dans pratiquement tous les véhicules comme par ex. par le biais d'une pompe à vide ou à partir de l'aspiration.

Origines des défaillances:
- Pénétration de saletés et d'humidité
- Températures élevées dans le compartiment moteur

Symptômes de dysfonctionnement:
- Diminution de la performance du moteur avec les systèmes EGR
- Passage en mode secours
- A-coups du véhicule

En el sistema neumático de un vehículo se cuenta con accionadores que tienen el cometido de ajustar o de conectar las válvulas o las tapas. Éstas se denominan también válvulas electroneumáticas.

La ventaja esencial de los sistemas de presión negativa consiste en que, con ellos, pueden generarse unas fuerzas mayores que con los sistemas eléctricos. Además prácticamente todos los vehículos tienen una presión negativa como, por ejemplo, la de la aspiración o la generada por una bomba de vacío.

Causas del fallo:
- Penetración de suciedades y humedad
- Altas temperaturas en el compartimento del motor

Indicios de disfunción:
- Reducción de la potencia del motor con sistemas de recirculación de aire de escape
- Marcha de emergencia
- Sacudidas del vehículo

Преобразователь давления

В пневматической системе автомобиля есть исполнительные механизмы, которые служат для регулировки или включения клапанов или заслонок. Они называются электропневматическими клапанами.

Основное преимущество вакуумных систем заключается в том, что в отличие от электрических систем могут генерироваться более высокие усилия при меньшей электрической мощности. Кроме того, пониженное давление присутствует практически в каждом автомобиле, как например, разрежение на впуске или с помощью вакуумного насоса.

Причины выхода из строя:
- Попадание грязи и влаги
- Высокая температура в моторном отсеке

Признаки неполадок:
- Снижение мощности двигателя при работе системы EGR
- Аварийный ход
- Рывки при движении автомобиля

Allgemeine Verkaufs- und Lieferbedingungen Garantiebedingungen 02/2017

I. Allgemeine Bestimmungen

1. Für den Umfang der Lieferungen oder Leistungen (im Folgenden: Lieferungen) sind die beiderseitigen schriftlichen Erklärungen maßgebend. Allgemeine Geschäftsbedingungen des Bestellers gelten jedoch nur insoweit, als der Lieferer oder Leistende (im Folgenden: Lieferer) ihnen ausdrücklich schriftlich zugestimmt hat.

2. An Kostenvoranschlägen, Zeichnungen und anderen Unterlagen (im Folgenden: Unterlagen) behält sich der Lieferer seine eigentums- und urheberrechtlichen Verwertungsrechte uneingeschränkt vor. Die Unterlagen dürfen nur nach vorheriger Zustimmung des Lieferers Dritten zugänglich gemacht werden und sind, wenn der Auftrag dem Lieferer nicht erteilt wird, diesem auf Verlangen unverzüglich zurückzugeben. Die Sätze 1 und 2 gelten entsprechend für Unterlagen des Bestellers; diese dürfen jedoch solchen Dritten zugänglich gemacht werden, denen der Lieferer zulässigerweise Lieferungen übertragen hat.

3. An Standardsoftware hat der Besteller das nicht ausschließliche Recht zur Nutzung mit den vereinbarten Leistungsmerkmalen in unveränderter Form auf den vereinbarten Geräten. Der Besteller darf ohne ausdrückliche Vereinbarung eine Sicherungskopie erstellen.

4. Teillieferungen sind zulässig, soweit sie dem Besteller zumutbar sind.

II. Preise und Zahlungsbedingungen

1. Die Preise verstehen sich ab Werk ausschließlich Verpackung zuzüglich der jeweils geltenden gesetzlichen Umsatzsteuer. Unseren Angeboten und Preisen liegen unsere aktuell gültigen Preislisten zugrunde, an die wir uns für die Dauer von 90 Tagen ab Bekanntgabe gebunden halten. Spätere Bestellungen/Aufträge werden aufgrund der dann gültigen Preislisten berechnet.

2. Hat der Lieferer die Aufstellung oder Montage übernommen und ist nicht etwas anderes vereinbart, so trägt der Besteller neben der vereinbarten Vergütung alle erforderlichen Nebenkosten wie Reisekosten, Kosten für den Transport des Handwerkszeugs und des persönlichen Gepäcks sowie Auslösungen.

3. Zahlungen sind frei Zahlstelle des Lieferers zu leisten.

4. Der Besteller kann nur mit solchen Forderungen aufrechnen, die unbestritten oder rechtskräftig festgestellt sind.

III. Eigentumsvorbehalt

1. Die Gegenstände der Lieferungen (Vorbehaltsware) bleiben Eigentum des Lieferers bis zur Erfüllung sämtlicher ihm gegen den Besteller aus der Geschäftsverbindung zustehenden Ansprüche. Soweit der Wert aller Sicherungsrechte, die dem Lieferer zustehen, die Höhe aller gesicherten Ansprüche um mehr als 20 % übersteigt, wird der Lieferer auf Wunsch des Bestellers einen entsprechenden Teil der Sicherungsrechte freigeben.

2. Während des Bestehens des Eigentumsvorbehalts ist dem Besteller eine Verpfändung oder Sicherungsübereignung untersagt und die Weiterveräußerung nur Wiederverkäufern im gewöhnlichen Geschäftsgang und nur unter der Bedingung gestattet, dass der Wiederverkäufer von seinem Kunden Bezahlung erhält oder den Vorbehalt macht, dass das Eigentum auf den Kunden erst übergeht, wenn dieser seine Zahlungsverpflichtungen erfüllt hat.

3. Bei Pfändungen, Beschlagnahmen oder sonstigen Verfügungen oder Eingriffen Dritter hat der Besteller den Lieferer unverzüglich zu benachrichtigen.

4. Bei Pflichtverletzungen des Bestellers, insbesondere bei Zahlungsverzug, ist der Lieferer nach erfolglosem Ablauf einer dem Besteller gesetzten angemessenen Frist zur Leistung zum Rücktritt und zur Rücknahme berechtigt; die gesetzlichen Bestimmungen über die Entbehrlichkeit einer Fristsetzung bleiben unberührt. Der Besteller ist zur Herausgabe verpflichtet.

IV. Fristen für Lieferungen; Verzug

1. Die Einhaltung von Fristen für Lieferungen setzt den rechtzeitigen Eingang sämtlicher vom Besteller zu liefernden Unterlagen, erforderlichen Genehmigungen und Freigaben, insbesondere von Plänen, sowie die Einhaltung der vereinbarten Zahlungsbedingungen und sonstigen Verpflichtungen durch den Besteller voraus. Werden diese Voraussetzungen nicht rechtzeitig erfüllt, so verlängern sich die Fristen angemessen; dies gilt nicht, wenn der Lieferer die Verzögerung zu vertreten hat.

2. Ist die Nichteinhaltung der Fristen auf höhere Gewalt, z. B. Mobilmachung, Krieg, Aufruhr, oder auf ähnliche Ereignisse, z. B. Streik, Aussperrung, zurückzuführen, verlängern sich die Fristen angemessen.

3. Kommt der Lieferer in Verzug, kann der Besteller - sofern er glaubhaft macht, dass ihm hieraus ein Schaden entstanden ist - eine Entschädigung für jede vollendete Woche des Verzuges von je 0,5 %, insgesamt jedoch höchstens 5% des Preises für den Teil der Lieferungen verlangen, der wegen des Verzuges nicht in zweckdienlichen Betrieb genommen werden konnte.

4. Sowohl Schadensersatzansprüche des Bestellers wegen Verzögerung der Lieferung als auch Schadensersatzansprüche statt der Leistung, die über die in Nr. 3 genannten Grenzen hinausgehen, sind in allen Fällen verzögerter Lieferung, auch nach Ablauf einer dem Lieferer etwa gesetzten Frist zur Lieferung, ausgeschlossen. Dies gilt nicht, soweit in Fällen des Vorsatzes, der groben Fahrlässigkeit oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit zwingend gehaftet wird. Vom Vertrag kann der Besteller im Rahmen der gesetzlichen Bestimmungen nur zurücktreten, soweit die Verzögerung der Lieferung vom Lieferer zu vertreten ist. Eine Änderung der Beweislast zum Nachteil des Bestellers ist mit den vorstehenden Regelungen nicht verbunden.

5. Der Besteller ist verpflichtet, auf Verlangen des Lieferers innerhalb einer angemessenen Frist zu erklären, ob er wegen der Verzögerung der Lieferung vom Vertrag zurücktritt oder auf die Lieferung besteht.

6. Werden Versand oder Zustellung auf Wunsch des Bestellers um mehr als einen Monat nach Anzeige der Versandbereitschaft verzögert, kann dem Besteller für jeden angefangenen Monat Lagergeld in Höhe von 0,5% des Preises der Gegenstände der Lieferungen, höchstens jedoch insgesamt 5% berechnet werden. Der Nachweis höherer oder niedrigerer Lagerkosten bleibt den Vertragsparteien unbenommen.

V. Gefahrübergang

1. Die Gefahr geht auch bei frachtfreier Lieferung wie folgt auf den Besteller über:

a) bei Lieferungen ohne Aufstellung oder Montage, wenn sie zum Versand gebracht oder abgeholt worden sind. Auf Wunsch und Kosten des Bestellers werden Lieferungen vom Lieferer gegen die üblichen Transportrisiken versichert;

b) bei Lieferungen mit Aufstellung oder Montage am Tage der Übernahme in eigenen Betrieb oder, soweit vereinbart, nach einwandfreiem Probebetrieb.

2. Wenn der Versand, die Zustellung, der Beginn, die Durchführung der Aufstellung oder Montage, die Übernahme in eigenen Betrieb oder der Probebetrieb aus vom Besteller zu vertretenden Gründen verzögert wird, oder der Besteller aus sonstigen Gründen in Annahmeverzug kommt, so geht die Gefahr auf den Besteller über.

VI. Aufstellung und Montage

Für die Aufstellung und Montage gelten, soweit nichts anderes schriftlich vereinbart ist, folgende Bestimmungen:

1. Der Besteller hat auf seine Kosten zu übernehmen und rechtzeitig zu stellen:

a) alle Erd-, Bau- und sonstigen branchenfremden Nebenarbeiten einschließlich der dazu benötigten Fach- und Hilfskräfte, Baustoffe und Werkzeuge,

b) die zur Montage und Inbetriebsetzung erforderlichen Bedarfsgegenstände und -stoffe, wie Gerüste, Hebezeuge und andere Vorrichtungen, Brennstoffe und Schmiermittel,

c) Energie und Wasser an der Verwendungsstelle einschließlich der Anschlüsse, Heizung und Beleuchtung,

d) bei der Montagestelle für die Aufbewahrung der Maschinenteile, Apparaturen, Materialien, Werkzeuge usw. genügend große, geeignete, trockene und verschließbare Räume und für das Montagepersonal angemessene Arbeits- und Aufenthaltsräume einschließlich den Umständen angemessener sanitärer Anlagen; im Übrigen hat der Besteller zum Schutz des Besitzes des Lieferers und des Montagepersonals auf der Baustelle die Maßnahmen zu treffen, die er zum Schutz des eigenen Besitzes ergreifen würde,

e) Schutzkleidung und Schutzvorrichtungen, die infolge besonderer Umstände der Montagestelle erforderlich sind.

2. Vor Beginn der Montagearbeiten hat der Besteller die nötigen Angaben über die Lage verdeckt geführter Strom-, Gas-, Wasserleitungen oder ähnlicher Anlagen sowie die erforderlichen statischen Angaben unaufgefordert zur Verfügung zu stellen.

3. Vor Beginn der Aufstellung oder Montage müssen sich die für die Aufnahme der Arbeiten erforderlichen Beistellungen und Gegenstände an der Aufstellungs oder Montagestelle befinden und alle Vorarbeiten vor Beginn des Aufbaues so weit fortgeschritten sein, dass die Aufstellung oder Montage vereinbarungsgemäß begonnen und ohne Unterbrechung durchgeführt werden kann. Anfuhrwege und der Aufstellungs- oder Montageplatz müssen geebnet und geräumt sein.

4. Verzögern sich die Aufstellung, Montage oder Inbetriebnahme durch nicht vom Lieferer zu vertretende Umstände, so hat der Besteller in angemessenem Umfang die Kosten für Wartezeit und zusätzlich erforderliche Reisen des Lieferers oder des Montagepersonals zu tragen.

5. Der Besteller hat dem Lieferer wöchentlich die Dauer der Arbeitszeit des Montagepersonals sowie die Beendigung der Aufstellung, Montage oder Inbetriebnahme unverzüglich zu bescheinigen.

6. Verlangt der Lieferer nach Fertigstellung die Abnahme der Lieferung, so hat sie der Besteller innerhalb von zwei Wochen vorzunehmen. Geschieht dies nicht, so gilt die Abnahme als erfolgt. Die Abnahme gilt gleichfalls als erfolgt, wenn die Lieferung - gegebenenfalls nach Abschluss einer vereinbarten Testphase - in Gebrauch genommen worden ist.

VII. Entgegennahme

Der Besteller darf die Entgegennahme von Lieferungen wegen unerheblicher Mängel nicht verweigern.

VIII. Sachmängel

Für Sachmängel haftet der Lieferer wie folgt:

1. Alle diejenigen Teile oder Leistungen sind nach Wahl des Lieferers unentgeltlich nachzubessern, neu zu liefern oder neu zu erbringen, die innerhalb der Verjährungsfrist - ohne Rücksicht auf die Betriebsdauer - einen Sachmangel aufweisen, sofern dessen Ursache bereits im Zeitpunkt des Gefahrübergangs vorlag.

2. Sachmängelansprüche verjähren in 24 Monaten. Die Dauer von 24 Monaten gilt nicht, soweit das Gesetz gemäß §§ 438 Abs. 1 Nr. 2 (Bauwerke und Sachen für Bauwerke), 479 Abs. 1 (Rückgriffsanspruch) und 634a Abs. 1 Nr.2 (Baumängel) BGB längere Fristen vorschreibt. Die gesetzlichen Regelungen über Ablaufhemmung, Hemmung und Neubeginn der Fristen bleiben unberührt.

3. Der Besteller hat Sachmängel gegenüber dem Lieferer unverzüglich schriftlich zu rügen.

4. Bei Mängelrügen dürfen Zahlungen des Bestellers in einem Umfang zurückgehalten werden, die in einem angemessenen Verhältnis zu den aufgetretenen Sachmängeln stehen. Der Besteller kann Zahlungen nur zurückhalten, wenn eine Mängelrüge geltend gemacht wird, über deren Berechtigung kein Zweifel bestehen kann. Erfolgte die Mängelrüge zu Unrecht, ist der Lieferer berechtigt, die ihm entstandenen Aufwendungen vom Besteller ersetzt zu verlangen.

5. Zunächst ist dem Lieferer Gelegenheit zur Nacherfüllung innerhalb angemessener Frist zu gewähren.

6. Schlägt die Nacherfüllung fehl, kann der Besteller - unbeschadet etwaiger Schadensersatzansprüche gemäß Art.

XI - vom Vertrag zurücktreten oder die Vergütung mindern.
7. Mängelansprüche bestehen nicht bei nur unerheblicher Abweichung von der vereinbarten Beschaffenheit, bei nur unerheblicher Beeinträchtigung der Brauchbarkeit, bei natürlicher Abnutzung oder Schäden, die nach dem Gefahrübergang infolge fehlerhafter oder nachlässiger Behandlung, übermäßiger Beanspruchung, ungeeigneter Betriebsmittel, oder die aufgrund besonderer äußerer Einflüsse entstehen, die nach dem Vertrag nicht vorausgesetzt sind, sowie bei nicht reproduzierbaren Softwarefehlern. Werden vom Besteller oder von Dritten unsachgemäß Änderungen oder Instandsetzungsarbeiten vorgenommen, so bestehen für diese und die daraus entstehenden Folgen ebenfalls keine Mängelansprüche.
8. Ansprüche des Bestellers wegen der zum Zweck der Nacherfüllung erforderlichen Aufwendungen, insbesondere Transport-, Wege-, Arbeits- und Materialkosten, sind ausgeschlossen, soweit die Aufwendungen sich erhöhen, weil der Gegenstand der Lieferung nachträglich an einen anderen Ort als die Niederlassung des Bestellers verbracht worden ist, es sei denn, die Verbringung entspricht seinem bestimmungsgemäßen Gebrauch.
9. Rückgriffsansprüche des Bestellers gegen den Lieferer gemäß § 478 BGB (Rückgriff des Unternehmers) bestehen nur insoweit, als der Besteller mit seinem Abnehmer keine über die gesetzlichen Mängelansprüche hinausgehenden Vereinbarungen getroffen hat. Für den Umfang des Rückgriffsanspruchs des Bestellers gegen den Lieferer gemäß § 478 Abs. 2 BGB gilt ferner Nr. 8 entsprechend.
10. Für Schadensersatzansprüche gilt im Übrigen Art. XI (Sonstige Schadensersatzansprüche). Weitergehende oder andere als die in diesem Art. VIII geregelten Ansprüche des Bestellers gegen den Lieferer und dessen Erfüllungsgehilfen wegen eines Sachmangels sind ausgeschlossen.

VIIIa. Garantie
Wir verweisen auf unsere separaten Garantiebedingungen, die auf Wunsch gern ausgehändigt werden.

IX. Gewerbliche Schutzrechte und Urheberrechte; Rechtsmängel
1. Sofern nicht anders vereinbart, ist der Lieferer verpflichtet, die Lieferung lediglich im Land des Lieferorts frei von gewerblichen Schutzrechten und Urheberrechten Dritter (im Folgenden: Schutzrechte) zu erbringen. Sofern ein Dritter wegen der Verletzung von Schutzrechten durch vom Lieferer erbrachte, vertragsgemäß genutzte Lieferungen gegen den Besteller berechtigte Ansprüche erhebt, haftet der Lieferer gegen über dem Besteller innerhalb der in Art. VIII Nr.2 bestimmten Frist wie folgt:
a) Der Lieferer wird nach seiner Wahl und auf seine Kosten für die betreffenden Lieferungen entweder ein Nutzungsrecht erwirken, sie so ändern, dass das Schutzrecht nicht verletzt wird, oder austauschen. Ist dies dem Lieferer nicht zu angemessenen Bedingungen möglich, stehen dem Besteller die gesetzlichen Rücktritts- oder Minderungsrechte zu.
b) Die Pflicht des Lieferers zur Leistung von Schadensersatz richtet sich nach Art. XI.
c) Die vorstehend genannten Verpflichtungen des Lieferers bestehen nur, soweit der Besteller den Lieferer über die vom Dritten geltend gemachten Ansprüche unverzüglich schriftlich verständigt, eine Verletzung nicht anerkennt und dem Lieferer alle Abwehrmaßnahmen und Vergleichsverhandlungen vorbehalten bleiben. Stellt der Besteller die Nutzung der Lieferung aus Schadensminderungs- oder sonstigen wichtigen Gründen ein, ist er verpflichtet, den Dritten darauf hinzuweisen, dass mit der Nutzungseinstellung kein Anerkenntnis einer Schutzrechtsverletzung verbunden ist.
2. Ansprüche des Bestellers sind ausgeschlossen, soweit er die Schutzrechtsverletzung zu vertreten hat.
3. Ansprüche des Bestellers sind ferner ausgeschlossen, soweit die Schutzrechtsverletzung durch spezielle Vorgaben des Bestellers, durch eine vom Lieferer nicht voraussehbare Anwendung oder dadurch verursacht wird, dass die Lieferung vom Besteller verändert oder zusammen mit nicht vom Lieferer gelieferten Produkten eingesetzt wird.
4. Im Falle von Schutzrechtsverletzungen gelten für die in Nr. 1 a) geregelten Ansprüche des Bestellers im Übrigen die Bestimmungen des Art. VIII Nr. 4, 5 und 9 entsprechend.
5. Bei Vorliegen sonstiger Rechtsmängel gelten die Bestimmungen des Art. VIII entsprechend.
6. Weitergehende oder andere als die in diesem Art. IX geregelten Ansprüche des Bestellers gegen den Lieferer und dessen Erfüllungsgehilfen wegen eines Rechtsmangels sind ausgeschlossen.

X. Unmöglichkeit; Vertragsanpassung
1. Soweit die Lieferung unmöglich ist, ist der Besteller berechtigt, Schadensersatz zu verlangen, es sei denn, dass der Lieferer die Unmöglichkeit nicht zu vertreten hat. Jedoch beschränkt sich der Schadensersatzanspruch des Bestellers auf 10 % des Wertes desjenigen Teils der Lieferung, der wegen der Unmöglichkeit nicht in zweckdienlichen Betrieb genommen werden kann. Diese Beschränkung gilt nicht, soweit in Fällen des Vorsatzes, der groben Fahrlässigkeit oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit zwingend gehaftet wird; eine Änderung der Beweislast zum Nachteil des Bestellers ist hiermit nicht verbunden. Das Recht des Bestellers zum Rücktritt vom Vertrag bleibt unberührt.
2. Sofern unvorhersehbare Ereignisse im Sinne von Art. IV Nr. 2 die wirtschaftliche Bedeutung oder den Inhalt der Lieferung erheblich verändern oder auf den Betrieb des Lieferers erheblich einwirken, wird der Vertrag unter Beachtung von Treu und Glauben angemessen angepasst. Soweit dies wirtschaftlich nicht vertretbar ist, steht dem Lieferer das Recht zu, vom Vertrag zurückzutreten. Will er von diesem Rücktrittsrecht Gebrauch machen, so hat er dies nach Erkenntnis der Tragweite des Ereignisses unverzüglich dem Besteller mitzuteilen und zwar auch dann, wenn zunächst mit dem Besteller eine Verlängerung der Lieferzeit vereinbart war.

XI. Sonstige Schadensersatzansprüche
1. Schadens- und Aufwendungsersatzansprüche des Bestellers (im Folgenden: Schadensersatzansprüche), gleich aus welchem Rechtsgrund, insbesondere wegen Verletzung von Pflichten aus dem Schuldverhältnis und aus unerlaubter Handlung, sind ausgeschlossen, soweit nicht Vorsatz oder grobe Fahrlässigkeit vorliegt oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit gehaftet wird.
2. Dies gilt nicht, soweit zwingend gehaftet wird, z. B. nach dem Produkthaftungsgesetz, in Fällen des Vorsatzes, der groben Fahrlässigkeit, wegen der Verletzung des Lebens, des Körpers oder der Gesundheit, wegen der Verletzung wesentlicher Vertragspflichten. Der Schadensersatzanspruch für die Verletzung wesentlicher Vertragspflichten ist jedoch auf den vertragstypischen, vorhersehbaren Schaden begrenzt, soweit nicht Vorsatz oder grobe Fahrlässigkeit vorliegt oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit gehaftet wird. Eine Änderung der Beweislast zum Nachteil des Bestellers ist mit den vorstehenden Regelungen nicht verbunden.
3. Soweit dem Besteller nach diesem Art. XI Schadensersatzansprüche zustehen, verjähren diese mit Ablauf der für Sachmängelansprüche geltenden Verjährungsfrist gemäß Art. VIII Nr. 2. Bei Schadensersatzansprüchen nach dem Produkthaftungsgesetz gelten die gesetzlichen Verjährungsvorschriften.

XII. Gerichtsstand und anwendbares Recht
1. Alleiniger Gerichtsstand ist, wenn der Besteller Kaufmann ist, bei allen aus dem Vertragsverhältnis unmittelbar oder mittelbar sich ergebenden Streitigkeiten der Sitz des Lieferers. Der Lieferer ist jedoch auch berechtigt, am Sitz des Bestellers zu klagen.
2. Für die Rechtsbeziehungen im Zusammenhang mit diesem Vertrag gilt deutsches materielles Recht unter Ausschluss des Übereinkommens der Vereinten Nationen über Verträge über den internationalen Warenkauf (CISG).

XIII. Verbindlichkeit des Vertrages
Der Vertrag bleibt auch bei rechtlicher Unwirksamkeit einzelner Bestimmungen in seinen übrigen Teilen verbindlich. Das gilt nicht, wenn das Festhalten an dem Vertrag eine unzumutbare Härte für eine Partei darstellen würde.

XIV. Katalogangaben
Es gelten nur die jeweils im Zeitpunkt des Vertragsabschlusses gültigen Kataloge des Lieferers. Alle vorangegangenen Kataloge und die dort gemachten Angaben verlieren durch den bei Vertragsabschluss geltenden Katalog ihre Gültigkeit. Alle im Katalog genannten technischen Werte der Produkte des Lieferers geben durchschnittlich ermittelte Ergebnisse elektronischer Betriebsdaten wieder.

Garantiebedingungen 02/2017
1. Unbeschadet der in gesetzlichen Regelungen begründeten Sachmängelhaftung übernimmt der Lieferer für die von ihm gelieferten Produkte eine Haltbarkeitsgarantie gemäß den nachfolgenden Bedingungen:
2. Der Lieferer garantiert die Mängelfreiheit der unter dem Markennamen und in Verpackung „HÜCO“ gelieferten Waren über einen Zeitraum von 60 Monaten, gerechnet ab Lieferung der Sache. Die Mängelfreiheit aller anderen Waren richtet sich in allen Fällen nach den gesetzlichen Vorschriften. Ausgenommen sind grundsätzlich Verschleißteile (einschließlich, aber nicht beschränkt auf z.B. Dioden, Kohlebürsten, Kugellager, komplette Lichtmaschinen, Anlasser, Wasserpumpen und Turbolader), die auch Teile der vom Lieferer gelieferten Produkte sein können.
3. Die Garantie erstreckt sich nur auf Sachmängel, die auf Material- oder Herstellungsfehler zurückzuführen sind, nicht hingegen auf Verschlechterungen der gelieferten Sache durch üblichen Verschleiß. Ausgenommen sind ferner unerhebliche Abweichungen von der vereinbarten Beschaffenheit, unerhebliche Beeinträchtigungen der Brauchbarkeit, natürliche Abnutzung und Schäden, die nach der Gebrauchsüberlassung in Folge fehlerhafter oder nachlässiger Behandlung, übermäßiger Beanspruchung, ungeeigneter Betriebsmittel oder auf Grund besonderer äußerer Einflüsse entstehen. Ebenfalls ausgenommen sind nicht vom Lieferer verbaute und/oder nicht vom Lieferer freigegebene Bauteile sowie Schäden in Folge der Verwendung derartiger Bauteile sowie generell Schäden in Folge von Reparaturen oder Reparaturversuchen, die nicht vom Lieferer oder von diesem auto-risierten Personen unternommen wurden, sowie Schäden durch sonstige eigenmächtige Eingriffe in das Bauteil. Ausgenommen sind ferner Schäden durch chemische oder elektrochemische Einwirkung, unsachgemäße Verwendung, fehlerhaften Einbau oder Anschluss, extreme Witterungseinflüsse, Nichtbeachtung der Montage- und Wartungseinleitung sowie nicht vom Lieferer zu vertretende Transportschäden.
4. Auf Grund der Garantie liefert der Lieferer in von der Garantie erfassten Fällen nach seiner Wahl Ersatz für die mangelhafte Sache oder beseitigt den Mangel. Voraussetzung ist eine unverzüglich schriftliche Mängelrüge des Bestellers, die den Mangel möglichst klar beschreibt. Erfolgte die Mängelrüge zu Unrecht, ist der Lieferer berechtigt, Ersatz der ihm durch die und in Folge der unberechtigten Mängelrüge entstandenen Aufwendungen zu verlangen.
5. Diese Garantie deckt weder die Kosten für den Transport des Produkts im Garantiefall zum Hersteller noch mit dem Transport zusammenhängenden Risiken.
6. Weitergehende oder andere Ansprüche, insbesondere solche auf Ersatz außerhalb des Liefergegenstandes entstandener Schäden, sind im Rahmen dieser Garantie ausgeschlossen, können aber ggf. aufgrund gesetzlicher Haftungstatbestände bestehen.

Hitachi Automotive Systems Espelkamp GmbH

Sales and Supply Conditions
Guarantee Terms 02/2017

I. General

1. The scope of deliveries and/or services (hereinafter referred to as „Supplies“) shall be determined by the written declarations of both Parties. General terms and conditions of the Purchaser shall apply only if and when expressly accepted by the supplier or the provider of services (hereinafter referred to as „Supplier“) in writing.
2. The Supplier herewith reserves any industrial property rights and/or copyrights pertaining to its cost estimates, drawings and other documents (hereinafter referred to as „Documents“). The Documents shall not be made accessible to third parties without the Supplier's prior consent and shall, upon request, be returned without Undue delay to the Supplier if the contract is not awarded to the Supplier. Sentences 1 and 2 shall apply mutatis mutandis to documents of the Purchaser; these may, however, be made accessible to third parties to whom the Supplier may rightfully transfer Supplies.
3. The Purchaser shall have the non-exclusive right to use standard software, provided that it remains unchanged, is used within the agreed performance parameters, and on the agreed equipment. The Purchaser may make one back-up copy without express agreement.
4. Partial Supplies shall be allowed, unless they are unreasonable to accept for the Purchaser.

II. Prices and terms of payment

1. Prices shall be considered ex works and exclude packaging; value added tax shall be added at the then current rate, if applicable. Our quotations and prices are based on our published pricelists, which are generally valid for 90 days from date of issue. Purchase orders received on a date after the term of validity of aforementioned pricelist or quotation will then be invoiced according at currently valid prices.
2. If the Supplier is also responsible for assembly or erection and unless otherwise agreed, the Purchaser shall pay the agreed remuneration and any incidental costs required, e. g. travel costs, costs for the transport of tools and equipment, and personal luggage as well as allowances.
3. Payments shall be made free Supplier's paying office.
4. The Purchaser may set off only those claims that are undisputed or against which no legal recourse is possible.

III. Retention of title

1. Items pertaining to the Supplies („Retained Goods“) shall remain the property of the Supplier until each and every claim the Supplier has against the Purchaser on account of the business connection has been fulfilled. If the combined value of the security interests of the Supplier exceeds the value of all secured claims by more than 20 %, the Supplier shall release a corresponding part of the security interest if so requested by the Purchaser.
2. For the duration of the retention of title, the Purchaser may not pledge the Retained Goods or use them as security, and resale shall be possible only for resellers in the ordinary course of their business and only on condition that the reseller receives payment from its customer or makes the transfer of property to the customer dependent upon the customer fulfilling its obligation to effect payment.
3. The Purchaser shall inform the Supplier forthwith of any seizure or other act of intervention by third parties.
4. Where the Purchaser fails to fulfill its duties, including failure to make payments due, the Supplier shall be entitled to cancel the contract and take back the Retained Goods in the case of continued failure following expiry of a reasonable time set by the Supplier; the statutory provisions that a time limit is not needed remain unaffected. The Purchaser shall be obliged to surrender the Retained Goods.

IV. Time for supplies; delay

1. Times set for Supplies can only be observed if all Documents to be supplied by the Purchaser, necessary permits and releases, especially concerning plans, are received in time and if agreed terms of payment and other obligations of the Purchaser are fulfilled. Unless these conditions are fulfilled in time, times set shall be extended appropriately; this shall not apply where the Supplier is responsible for the delay.
2. If non-observance of the times set is due to force majeure such as mobilization, war, rebellion or similar events, e. g. strike or lockout, such time shall be extended accordingly.
3. If the Supplier is responsible for the delay (hereinafter referred to as „Delay“) and the Purchaser demonstrably suffered a loss there from, the Purchaser may claim a compensation as liquidated damages of 0.5 % for every completed week of Delay, but in no case more than a total of 5 % of the price of that part

of the Supplies which because of the Delay could not be put to the intended use.
4. Purchaser's claims for damages due to delayed Supplies as well as claims for damages in lieu of performance exceeding the limits specified in No. 3 above shall be excluded in all cases of delayed Supplies even upon expiry of a time set to the Supplier to effect the Supplies. This shall not apply in cases of mandatory liability based on intent, gross negligence, or due to injury of life, body or health. Cancellation of the contract by the Purchaser based on statute shall be limited to cases where the Supplier is responsible for the delay. The above provisions do not imply a change in the burden of proof to the detriment of the Purchaser.
5. At the Supplier's request the Purchaser shall declare within a reasonable period of time whether the Purchaser cancels the contract due to the delayed Supplies or insists on the Supplies to be carried out.
6. If dispatch or shipment is delayed at the Purchaser's request by more than one month after notice of the readiness for dispatch was given, the Purchaser may be charged, for every month commenced, storage costs of 0.5 % of the price of the items of the Supplies, but in no case more than a total of 5 %. The parties to the contract may prove that higher or, as the case may be, lower storage costs have been incurred.

V. Transfer of risk

1. Even where delivery has been agreed freight free, the risk shall pass to the Purchaser as follows:
a) if the Supplies do not include assembly or erection, at the time when the Supplies are shipped or picked up by the carrier. Upon request of the Purchaser, the Supplier shall insure the Supplies against the usual risks of transport at the expense of the Purchaser;
b) if the Supplies include assembly or erection, at the day of taking over in the own works or, if so agreed, after a fault-free trial run.
2. The risk shall pass to the Purchaser if dispatch, shipping, the start or performance of assembly or erection, the taking over in the own works or the trial run is delayed for reasons for which the Purchaser is responsible or if the Purchaser has other wise failed to accept the Supplies.

VI. Assembly and erection

Unless otherwise agreed in writing, assembly/erection shall be subject to the following provisions:

1. The Purchaser shall provide at its own expense and in good time:
a) all earth and construction work and other ancillary work outside the scope of the Supplier, including the necessary skilled and unskilled labor, construction materials and tools,
b) the equipment and materials necessary for assembly and commissioning such as scaffolds, lifting equipment and other devices as well as fuels and lubricants,
c) energy and water at the point of use including connections, heating and lighting,
d) suitable dry and lockable rooms of sufficient size adjacent to the site for the storage of machine parts, apparatus, materials, tools, etc. and adequate working and recreation rooms for the erection personnel, including sanitary facilities as are appropriate in the
specific circumstances. Furthermore, the Purchaser shall take all measures it would take for the protection of its own possessions to protect the possessions of the Supplier and of the erection personnel at the site, e) protective clothing and protective devices needed due to particular conditions prevailing on the specific site.
2. Before the erection work starts, the Purchaser shall make available of its own accord any information required concerning the location of concealed electric power, gas and water lines or of similar installations as well as the necessary structural data.
3. Prior to assembly or erection, the materials and equipment necessary for the work to start must be available on the site of assembly/erection and any preparatory work must have advanced to such a degree that assembly/erection can be started as agreed and carried out without interruption. Access roads and the assembly/ erection site itself must be level and clear.
4. If assembly, erection or commissioning is delayed due to circumstances for which the Supplier is not responsible, the Purchaser shall bear the reasonable costs incurred for idle times and any additional travelling of the Supplier or the erection personnel.
5. The Purchaser shall attest to the hours worked by the erection personnel towards the Supplier at weekly intervals and the Purchaser shall immediately confirm in writing if assembly, erection or commissioning has been completed.
6. If, after completion, the Supplier demands acceptance of the Supplies, the Purchaser shall comply therewith within a period of two weeks. In default thereof, acceptance is deemed to have taken place. Acceptance is also deemed to have been effected if the Supplies are put to use, after completion of an agreed test phase, if any.

VII. Receiving of supplies

The Purchaser shall not refuse to receive Supplies due to minor defects.

VIII. Defects as to quality

The Supplier shall be liable for defects as to quality („Sachmängel“, hereinafter referred to as „Defects“,) as follows:

1. All parts or services where a Defect becomes apparent within the limitation period shall, at the discretion of the Supplier, be repaired, replaced or provided again free of charge irrespective of the hours of operation elapsed, provided that the reason for the Defect had already existed at the time when the risk passed.
2. Claims based on Defects are subject to a limitation period of months. These provisions shall not apply where longer periods are prescribed by law according to Sec. 438 para. 1 No. 2 (buildings and things used for a building), Sec. 479 para. 1 (right of recourse), and Sec. 634a para. 1 No. 2 (defects of a building) German Civil Code („BGB“), as well as in cases of injury of life, body or health, or where the Supplier intentionally or grossly negligently fails to fulfill its obligation or fraudulently conceals a Defect. The legal provisions regarding suspension of expiration („Ablaufhemmung“), suspension („Hemmung“) and recommencement of limitation periods remain unaffected.
3. The Purchaser shall notify Defects to the Supplier in writing and without undue delay.
4. In the case of notification of a Defect, the Purchaser may withhold payments to a reasonable extent taking into account the Defect occurred. The Purchaser, however, may withhold payments only if the subject-matter of the notification of the Defect occurred is justified beyond doubt. Unjustified notifications of Defect shall entitle the Supplier to have its expenses reimbursed by the Purchaser.
5. The Supplier shall first be given the opportunity to supplement its performance („Nacherfüllung“) within a reasonable period of time.
6. If supplementary performance is unsuccessful, the Purchaser shall be entitled to cancel the contract or reduce the remuneration, irrespective of any claims for damages it may have according to Art. XI.
7. There shall be no claims based on Defect in cases of insignificant deviations from the agreed quality, of only minor impairment of usefulness, of natural wear and tear or damage arising after the transfer of risk from faulty or negligent handling, excessive strain, unsuitable equipment, defective workmanship or from particular external influences not assumed under the contract, or from non-reproducible software errors. Claims based on defects attributable to improper modifications or repair work carried out by the Purchaser or third parties and the consequences thereof shall be likewise excluded.
8. The Purchaser shall have no claim with respect to expenses incurred in the course of supplementary performance, including costs of travel and transport, labour, and material, to the extent that expenses are increased because the subject-matter of the Supplies was subsequently brought to another location than the Purchaser's branch office, unless doing so complies

with the intended use of the Supplies.

9. The Purchaser's right of recourse against the Supplier pursuant to Sec. 478 BGB is limited to cases where the Purchaser has not concluded an agreement with its customers exceeding the scope of the statutory provisions governing claims based on Defects. Moreover, No. 8 above shall apply mutatis mutandis to the scope of the right of recourse the Purchaser has against the Supplier pursuant to Sec. 478 para. 2 BGB.
10. Furthermore, the provisions of Art. XI (Other Claims for Damages) shall apply in respect of claims of damages. Any other claims of the Purchaser against the Supplier or its agents or any such claims exceeding the claims provided for in this Art. VIII, based on a Defect, shall be excluded.

VIII a) Guarantee

Our guarantee terms apply. They are available upon request.

IX. Industrial property rights and copyright; defects in title

1. Unless otherwise agreed, the Supplier shall provide the Supplies free from third parties' industrial property rights and copyrights (hereinafter referred to as „IPR") with respect to the country of the place of destination. If a third party asserts a justified claim against the Purchaser based on an infringement of an IPR with respect to the Supplies made by the Supplier and then used in conformity with the contract, the Supplier shall be liable to the Purchaser within the time period stipulated in Art. VIII No. 2 as follows:
   a) The Supplier shall choose whether to acquire, at its own expense, the right to use the IPR with respect to the Supplies concerned or whether to modify the Supplies such that they no longer infringe the IPR or replace them. If this would be unreasonable to demand from the Supplier, the Purchaser may cancel the contract or reduce the remuneration pursuant to the applicable statutory provisions.
   b) The Supplier's liability to pay damages shall be governed by Art. XI.
   c) The above obligations of the Supplier shall only apply if the Purchaser (i) immediately notifies the Supplier of any such claim asserted by the third party in writing, (ii) does not concede the existence of an infringement and (iii) leaves any protective measures and settlement negotiations to the discretion of the Supplier. If the Purchaser stops using the Supplies in order to reduce the damage or for other good reason, it shall be obliged to point out to the third party that no acknowledgement of the alleged infringement may be inferred from the fact that the use has been discontinued.
2. Claims of the Purchaser shall be excluded if it is itself responsible for the infringement of an IPR.
3. Claims of the Purchaser shall also be excluded if the infringement of the IPR is caused by specifications made by the Purchaser, to a type of use not foreseeable by the Supplier or to the Supplies being modified by the Purchaser or being used together with products not provided by the Supplier.
4. In addition, with respect to claims by the Purchaser pursuant to No. 1 a) above, Art VIII Nos. 4, 5, and 9 shall apply mutatis mutandis in the event of an infringement of an IPR.
5. Where other defects in title occur, Art. VIII shall apply mutatis mutandis.
6. Any other claims of the Purchaser against the Supplier or its agents or any such claims exceeding the claims provided for in this Art. IX, based on a defect in title, shall be excluded.

X. Impossibility of performance; adaption of contract

1. To the extent that Supplies are impossible to be carried out, the Purchaser shall be entitled to claim damages, unless the Supplier is not responsible for the impossibility. The Purchaser's claim for damages shall, however, be limited to an amount of 10 % of the value of the part of the Supplies which, owing to the impossibility, cannot be put to the intended use. This limitation shall not apply in the case of mandatory liability based on intent, gross negligence or injury of life, body or health; this does not imply a change in the burden of proof to the detriment of the Purchaser. The right of the Purchaser to cancel the contract shall remain unaffected.
2. Where unforeseeable events within the meaning of Art. IV No. 2 substantially change the economic importance or the contents of the Supplies or considerably affect the Supplier's business, the contract shall be adapted taking into account the principles of reasonableness and good faith. Where doing so is economically unreasonable, the Supplier shall have the right to cancel the contract. If the Supplier intends to exercise its right to cancel the contract, it shall notify the Purchaser thereof without undue delay after having realized the repercussions of the event; this shall also apply even where an extension of the delivery period had previously been agreed with the Purchaser.

XI. Other claims for damages

1. Any claims for damages and reimbursement of expenses the Purchaser may have (hereinafter referred to as „Claims for Damages"), based on whatever legal reason, including infringement of duties arising in connection with the contract or tort, shall be excluded.
2. The above shall not apply in the case of mandatory liability, e. g. under the German Product Liability Act („Produkthaftungsgesetz"), in the case of intent, gross negligence, injury of life, body or health, or breach of a condition which goes to the root of the contract („wesentliche Vertragspflichten"). However, Claims for Damages arising from a breach of a condition which goes to the root of the contract shall be limited to the foreseeable damage which is intrinsic to the contract, unless caused by intent or gross negligence or based on liability for injury of life, body or health. The above provision does not imply a change in the burden of proof to the detriment of the Purchaser.
3. To the extent that the Purchaser has a valid Claim for Damages according to this Art. XI, it shall be time-barred upon expiration of the limitation period applicable to Defects pursuant to Art. VIII No. 2. In the case of claims for damages under the German Product Liability Act, the statutory provisions governing limitation periods shall apply.

XII. Venue and applicable law

1. If the Purchaser is a businessperson, sole venue for all disputes arising directly or indirectly out of the contract shall be the Supplier's place of business. However, the Supplier may also bring an action at the Purchaser's place of business.
2. Legal relations existing in connection with this contract shall be governed by German substantive law, to the exclusion of the United Nations Convention on Contracts for the International Sale of Goods (CISG).

XIII. Severability clause

The legal invalidity of one or more provisions of this contract shall in no way affect the validity of the remaining provisions. This shall not apply if it would be unreasonable for one of the parties to continue the contract.

XIV. Catalogue information

Only the catalogue valid at the time of the conclusion of the contract shall apply. All previous catalogues and the information therein shall be rendered invalid by the catalogue applicable at the time of concluding the contract.

All technical values of the supplier's product stated in the catalogue are average values determined from electronically-held operational data.

Guarantee Terms 02/2017

1. The following guarantee terms shall apply to any products supplied by the Supplier. Statutory warranty rights (supplementary performance, rescission or reduction of the purchase price, damages) are not affected by this guarantee. This guarantee shall be considered as a voluntary promise by the Supplier towards the purchaser and shall not affect the seller´s warranty obligation under the contract of sale with the purchaser.
2. From the date of delivery to the purchaser, Supplier grants a 60 months guarantee period for products labeled „HÜCO" and with HÜCO branded package. All other products have a guarantee period as per applicable laws and regulations. Wear and tear parts (including, but not limited to e.g. diodes, carbon brushes, bearings, complete alternators, starters, water pumps and turbo chargers) , which may also be components of Supplier´s products, are categorically excluded from this guarantee.
3. This guarantee covers solely defects as to quality, i.e. material defects or manufacturing defects. Wear and tear is excluded from the guarantee, as are insignificant deviations from the agreed quality, only minor impairment of usefulness, damage arising after the transfer of risks from faulty or negligent handling, excessive strain, unsuitable equipment, defective workmanship and from particular external influences not assumed under the contract. Furthermore, the guarantee does not cover components which were not integrated and/or not approved by Supplier and the consequences thereof. Defects or dam-age arising from repair work carried out by third parties – i.e. by anybody else than Supplier or his authorized contractors – or from other unauthorized interventions shall be likewise excluded, as well as defects due to chemical or electrochemical exposure, inappropriate utilization, defective installation or connection, extreme atmospheric exposure, non-observance of installation instructions or maintenance guidelines and damage in transit.
4. In case of a defect, the purchaser is obliged to inform Supplier of the defect in writing and without unduly delay, describing the alleged defect. If the defect is covered by this guarantee, Supplier will, in his discretion, provide subsequent performance or repair the defect product. In case of no defect covered by this guarantee, purchaser is obliged to compensate Supplier for his expenses induced by the notice of defects.
5. This guarantee does not cover transport costs for sending the defect product to the supplier, nor the risks of loss and damage during this transport.
6. Other or further claims, in particular claims for compensation beyond the damage to the product, shall be excluded unless the law or contractual terms provide for mandatory liability.

Hitachi Automotive Systems Espelkamp GmbH

Conditions générales de vente et de livraison
Conditions de garantie 02/2017

I. Dispositions générales

1. Concernant l'étendue des livraisons ou des prestations (désignées ci-après «livraisons »), les déclarations écrites des deux parties font foi. Les conditions générales de l'acheteur ne sont toutefois valables que si le fournisseur ou le prestataire de service (désigné ci-après «fournisseur «y a consenti expressément par écrit.
2. Le fournisseur conserve sans réserve ses droits de propriété et d'utilisation concernant tous les devis, esquisses et autres documents (désignés ci-après «documents »). Ces documents ne peuvent être communiqués à des tiers qu'avec l'accord préalable du fournisseur. Si le contrat n'a pas été attribué au fournisseur, ces documents doivent lui être restitués s'il en fait la demande. Les alinéas 1 et 2 s'appliquent de la même façon aux documents de l'acheteur ; par contre, ils peuvent être mis à la disposition des tiers qui sont délégués par le fournisseur pour l'exécution de livraisons.
3. L'acheteur jouit d'un droit non exclusif lui permettant d'utiliser les logiciels standard, sous forme inchangée, sur les appareils convenus, avec les fonctions convenues. L'acheteur peut effectuer une copie de sauvegarde sans accord formel.
4. Les livraisons partielles sont admissibles dans la mesure où elles sont acceptables pour l'acheteur.

II. Prix et conditions de paiement

1. Les prix s'entendent départ usine, hors emballage, taxe sur la valeur ajoutée respectivement en vigueur en sus. Nos offres et prix sont sujets de la base des tarifs actuellement en vigueur à lesquelles nous restons liés pour une durée de 90 jours à partir de la publication. Les commandes tardives seront exécutées sur la base des tarifs en vigueur au moment de la commande.
2. Si le fournisseur est chargé de l'installation ou du montage et que rien d'autre n'a été convenu, l'acheteur supporte en plus de la rémunération convenue tous les frais annexes nécessaires tels que frais de déplacement, coûts du transport de l'outillage et des bagages personnels ainsi que les indemnités de déplacement.
3. Les paiements sont à effectuer sans frais au domicile bancaire du fournisseur.
4. L'acheteur ne peut compenser ses factures qu'avec des exigences qui sont déclarées incontestées ou valables en droit.

III. Réserve de propriété

1. Les objets de la livraison (marchandises sous réserve de propriété) restent la propriété du fournisseur jusqu'à l'acquittement par l'acheteur de toutes les obligations de la transaction. Si la valeur de l'ensemble des sûretés revenant au fournisseur dépasse de plus de 20 % le montant de toutes les obligations garanties, le fournisseur s'engage à la demande de l'acheteur à libérer une partie équivalente des sûretés.
2. Durant l'existence de la réserve de propriété, la mise en gage ou la cession d'un titre de propriété à titre de sûreté est interdite à l'acheteur et la revente n'est autorisée qu'à des revendeurs selon la marche normale des affaires et uniquement à la condition que le revendeur obtienne paiement de la part de son client ou qu'il émette la réserve que la propriété ne sera acquise par son client que lorsque celui-ci aura honoré ses obligations de paiement.
3. L'acheteur informera immédiatement le fournisseur en cas de mises en gage, de saisies ou d'autres actes de disposition ou interventions de tiers.
4. En cas de violations contractuelles de la part de l'acheteur, notamment en cas de retard de paiement, le fournisseur a le droit de résiliation et de reprise de la marchandise, après l'expiration d'un délai raisonnable fixé à l'acheteur et resté infructueux. L'acheteur est dans l'obligation de restituer la marchandise.

IV. Délais de livraisons ; retards

1. Le respect des délais de livraison implique la réception en temps voulu de tous les documents à fournir par l'acheteur, des autorisations nécessaires et des validations, en particulier des plans, ainsi que le respect des conditions de paiement convenues et des autres obligations. Si ces conditions préalables ne sont pas remplies en temps voulu, les délais se prolongeront en conséquence ; ceci n'est pas valable si le fournisseur est responsable du retard.
2. Si le non respect des délais est dû à un cas de force majeure, par ex. mobilisation, guerre, émeute ou événements semblables, par ex. grève ou lock-out, les délais se prolongent en conséquence.
3. Si le fournisseur est en demeure de livrer, l'acheteur peut, dans la mesure où il prouve de manière crédible qu'un dommage lui a été occasionné, demander un forfait de dédommagement de 0,5 % pour chaque semaine achevée constituant un retard, néanmoins au total d'un maximum de 5 % du prix pour la partie des produits livré qui n'ont pas pu être mis en service de manière utile en raison du retard.
4. Tout dédommagement de l'acheteur pour retard de livraison et toute prétention à des dommages et intérêts en remplacement de la prestation qui dépasse les limites figurant au § 3 ci-dessus, sont exclus dans tous les cas de livraison retardées, même après expiration d'un éventuel délai fixé au fournisseur. Cette règle ne s'applique pas si la responsabilité est impérative en cas de négligence, de faute grave ou d'atteinte à la vie, au corps ou à la santé. L'acheteur ne peut résilier le contrat dans le cadre des dispositions légales que si le retard de livraison est imputable au fournisseur. Une modification de la charge de la preuve au détriment de l'acheteur n'est pas affectée par les réglementations citées ci-dessus.
5. À la demande du fournisseur, l'acheteur est tenu de l'informer dans un délai raisonnable s'il résilie le contrat pour cause de retard dans la livraison ou s'il exige la livraison.
6. Si, à la demande de l'acheteur, l'expédition ou la livraison est retardée de plus d'un mois après l'avis de mise à disposition, le fournisseur est en droit de facturer les frais d'entreposage de la marchandise pour chaque mois commencé, à hauteur de 0,5% du montant total des livraisons, au maximum à hauteur de 5 %. Les parties sont libres d'apporter la preuve que les frais d'entreposage sont supérieurs ou inférieurs.

V. Transfert du risque

1. Le risque est transféré à l'acheteur également en cas de livraison port payé selon les clauses suivantes :
   a) pour les livraisons sans installation ni montage, au moment de l'expédition ou de l'enlèvement. A la demande de l'acheteur et à ses frais, le fournisseur peut assurer les livraisons contre les risques usuels de transport.
   b) pour les livraisons avec installation ou montage, le jour de la mise en service ou, sur accord mutuel, après une mise en service test réussie.
2. Le risque est transféré à l'acheteur si l'expédition, la livraison, le commencement, et l'exécution de l'installation ou du montage, la prise en charge dans la propre exploitation ou le test de mise en service, prennent du retard pour des raisons imputables à l'acheteur ou bien si l'acheteur ne réceptionne pas la livraison dans le délai imparti.

VI. Mise en place et montage

Sauf accord écrit préalable, la mise en place et le montage sont soumis aux dispositions suivantes :

1. L'acheteur doit, à ses propres frais et en temps voulu :
   a) réaliser tous les travaux de terrassement, de construction, et autres travaux externes au secteur, et mettre à disposition le personnel qualifié et auxiliaire, ainsi que les matériaux et outils nécessaires à cet effet,
   b) mettre à disposition l'équipement et les matériaux nécessaires au montage et à la mise en service, tels que échafaudages, plateformes élévatrices et autres dispositifs nécessaires,
   c) mettre à disposition l'énergie et l'eau au point d'utilisation, y compris les raccordements, le chauffage et l'éclairage,
   d) mettre à disposition un nombre suffisant de locaux secs, fermant à clé et appropriés pour y stocker composants de machines, appareils, matériaux, outillage, et, pour le personnel de montage, des locaux de permanence et de travail appropriés pour le personnel de montage, ainsi que des installations sanitaires adéquates ; l'acheteur assurera en outre la protection des biens du fournisseur et des techniciens de montage sur le chantier en prenant les mêmes mesures de protection que pour ses biens personnels,
   e) mettre à disposition les équipements et dispositifs de protection requis en raison des conditions particulières sur le site de montage.
2. Avant de commencer les travaux de montage, l'acheteur fournira les données nécessaires sur les gaines encastrées des câbles électriques, de gaz, ou des canalisations d'eau et sur les autres installations similaires ainsi que les caractéristiques statiques nécessaires.
3. Avant le début des travaux d'installation et de montage, les équipements et objets nécessaires pour commencer les travaux doivent être disponibles sur le lieu d'installation ou de montage ; tous les travaux préliminaires doivent être suffisamment avancés pour permettre de commencer et de mener à bien sans interruption l'installation ou le montage conformément au contrat. Les voies d'accès et le site d'installation ou de montage doivent avoir été aplanis et dégagés.
4. Si l'assemblage, le montage ou la mise en service sont retardés en raison de circonstances dont le fournisseur n'est pas responsable, l'acheteur supportera les frais raisonnables encourus, les coûts supplémentaires pour les temps d'attente et tous les autres déplacements du fournisseur ou des personnels de montage.
5. L'acheteur attestera chaque semaine au fournisseur le nombre d'heures travaillées par le personnel de montage ainsi que l'achèvement de l'installation, du montage ou de la mise en service dès que cela aura été effectué.
6. Si le fournisseur exige la réception de l'installation une fois les travaux terminés, l'acheteur y procèdera dans un délai de deux semaines. A défaut, la réception est réputée avoir eu lieu. La réception est également réputée avoir eu lieu si la livraison, le cas échéant après une phase d'essai convenue dans le contrat, a été mise en service.

VII. Réception

L'acheteur ne peut pas refuser la réception des livraisons pour cause de vices insignifiants.

VIII. Vices matériels

En cas de vices, le fournisseur assume la responsabilité suivante :

1. Toutes les pièces ou prestations présentant un vice matériel pendant le délai de prescription (quelle que soit la durée de fonctionnement), dans la mesure où la cause de ce vice matériel était déjà présente au moment du transfert du risque, seront réparées ou remplacées gratuitement ou effectuées à nouveau, à la convenance du fournisseur.
2. Le droit à garantie pour vices matériels s'éteint après 24 mois. Cette durée de 24 mois n'est pas valable si la loi prescrit des délais plus longs en vertu des art. 438, al.1, n° 2 (Bâtiments et matériaux de construction), art. 479, al.1 (Droit de recours) et art. 634a, al.1, n° 2 (Vices de construction) du code civil allemand (BGB). Il n'est pas dérogé aux prescriptions légales concernant la suspension, l'interruption et la reprise des délais.
3. L'acheteur avisera immédiatement le fournisseur par écrit de l'existence de vices matériels.
4. En cas de réclamation, l'acheteur est en droit de retenir une partie du paiement dans une mesure qui correspond raisonnablement à l'étendue des vices constatés. L'acheteur ne peut retenir un paiement que si le vice constaté est réellement incontestable. Si un défaut signalé n'est pas justifié, le fournisseur est autorisé à exiger le remboursement des coûts.
5. Le fournisseur doit avoir la possibilité, a posteriori et dans un délai raisonnable, de remplir ses obligations.
6. Si la suppression ultérieure du vice échoue, l'acheteur peut résilier le contrat ou réduire le montant dû, sans préjudice de dommages et intérêts selon l'art. XI du contrat.
7. Les droits à la garantie ne peuvent être revendiqués si la divergence par rapport à la qualité convenue est insignifiante, en cas d'une perturbation minimale de l'utilité, d'une usure naturelle ou de dommages causés après le transfert de risque

suite à une manipulation défectueuse ou négligente, d'une sollicitation excessive, de moyens d'exploitation inappropriés ou provoqués par des influences extérieures qui ne sont pas stipulées dans le contrat, ainsi qu'en cas d'erreurs logicielles non reproductibles. Si des modifications et réparations sont effectuées incorrectement par l'acheteur ou par un tiers, le fournisseur n'assume aucune garantie pour ces travaux et modifications ainsi que pour les conséquences qui en résultent.

8. Les revendications de l'acheteur concernant les frais engagés dans le cadre des prestations supplémentaires, y compris les coûts de transport, de déplacement, de travail et de matériaux, sont exclues, dans la mesure où les dépenses sont majorées parce que l'objet de la livraison a été livré postérieurement à un autre endroit que le siège social de l'acheteur, à moins que cela ne soit conforme à la destination.
9. Le droit de recours de l'acheteur à l'encontre du fournisseur en vertu du § 478 du code civil allemand (BGB) (Droit de recours de l'entrepreneur) n'est valable que si l'acheteur n'a pas conclu avec son client d'accord concernant les prétentions pour les vices supplémentaires à ceux cités dans la loi. L'étendue du droit de recours de l'acheteur à l'encontre du fournisseur en vertu de l'art. 478 al. 2 BGB est applicable selon le n° 8.
10. Pour le reste, les droits à dommages et intérêts sont définis par l'article XI (Autres droits à dommages et intérêts). Tout recours de l'acheteur à l'encontre du fournisseur ou de ses auxiliaires d'exécution en raison de vices juridiques autres que ceux traités dans ce point VIII est exclu.

VIIIa. Garantie

Nous renvoyons à nos clauses de garantie séparées qui vous trouvez à la fin de ces CGV sous le titre : Conditions de garantie 4/2015.

IX. Droits de propriété industrielle et copyright ; vices juridiques

1. Sauf accord contraire, le fournisseur est tenu d'effectuer la livraison seulement dans le pays du lieu de livraison exempte de droits de propriété industrielle et de droits de propriété de tiers (désignés ci-après «droits de protection »). Si un tiers fait valoir des droits justifiés à l'encontre de l'acheteur en raison d'une violation de droits de protection par des produits livrés par le fournisseur et exploitées par l'acheteur conformément au contrat, le fournisseur assume la responsabilité à l'encontre de l'acheteur dans les limites du délai fixé dans l'art. VIII n° 2, selon les modalités suivantes :

a) Le fournisseur pourra, à sa convenance et à ses propres frais, requérir l'attribution d'un droit de jouissance concernant les livraisons en question, les modifier de sorte que le droit de propriété ne soit pas lésé, ou les échanger. Si cela ne s'avère pas possible au fournisseur dans des conditions appropriées, l'acheteur peut exercer le droit que la loi lui confère et résilier le contrat ou exiger une réduction du prix.
b) Les obligations du fournisseur en matière de réparation des dommages sont régies par l'art. XI.
c) Les obligations susnommées du fournisseur n'existent que dans la mesure où l'acheteur l'a informé immédiatement des droits qu'a fait valoir le tiers, qu'il ne reconnaît pas la violation de ces droits et que toutes les mesures de défense et de négociations de compromis sont réservées au fournisseur. Si l'acheteur interrompt l'utilisation de la livraison pour réduire les dommages ou pour d'autres raisons, il s'engage à signaler au tiers que la cessation d'utilisation n'est nullement liée à une reconnaissance de violation d'un droit de protection.

2. Les prétentions de l'acheteur sont exclues dans la mesure où il répond de la violation du droit de protection.
3. Les prétentions de l'acheteur sont également exclues dans la mesure où la violation du droit de protection résulte d'exigences spéciales de l'acheteur, d'une utilisation non prévisible par le fournisseur ou du fait que le produit livré a été modifié par l'acheteur ou qu'il est utilisé avec des produits non livrés par le fournisseur.
4. Au demeurant, en cas de violations du droit de propriété, les dispositions de l'article VIII, al. 4, 5 et 9, sont applicables pour les droits de l'acheteur déterminés à l'al. 1a).
5. Les dispositions stipulées à l'art. VIII s'appliquent par analogie à tous les autres vices juridiques.
6. Tout recours de l'acheteur à l'encontre du fournisseur ou de ses auxiliaires d'exécution en raison d'un vice juridique autre que ceux traités dans ce point IX est exclu.

X. Impossibilité ; adaptation du contrat

1. Si la livraison est impossible, l'acheteur est en droit d'exiger des dommages et intérêts, excepté si le fournisseur n'est pas responsable de l'impossibilité de livrer. Le droit à dommages et intérêts de l'acheteur se limite toutefois à 10 % de la valeur de la partie de la livraison qui ne peut pas être intégrée dans le processus d'exploitation utile. Cette restriction ne s'applique pas en cas de responsabilité impérative, de préméditation, de négligence grave ou de blessures à la vie, au corps et à la santé ; ceci n'implique pas une modification de la charge de la preuve au détriment de l'acheteur. Il n'est pas dérogé au droit de résiliation du contrat de l'acheteur.
2. Si des événements imprévisibles au sens de l'art. IV n° 2 modifient considérablement l'impact économique ou le contenu des produits livrés, ou ont des incidences considérables sur les activités du fournisseur, le contrat sera adapté en conséquence selon les principes de loyauté et de confiance réciproques. Si une telle adaptation n'est pas économiquement justifiable, le fournisseur est en droit de résilier le contrat. S'il désire faire usage de ce droit de résiliation, il le fera savoir sans retard à l'acheteur après reconnaissance de la portée de l'événement, à savoir également si une prolongation de délai avait d'abord été convenue avec l'acheteur.

XI. Autres revendications de dommages et intérêts

1. Les revendications de l'acheteur de dommages et intérêts et d'indemnisations (désignés ci-après «Droits à dommages et intérêts »), quelle qu'en soit la cause, notamment en raison de la violation de droits résultant du rapport d'obligation et d'une action non autorisée sont exclues, sauf en cas de préméditation, de négligence grave ou d'une violation ayant entraîné la mort, des blessures ou porté atteinte à la santé.
2. Ceci n'est pas valable dans la mesure où il y a responsabilité impérative selon la loi allemande sur la responsabilité relative aux produits, en cas de préméditation, de négligence grave ou d'une violation ayant entraîné la mort, des blessures ou porté atteinte à la santé, ou en cas de violation des obligations contractuelles. Le droit à dommages et intérêts pour violation d'obligations contractuelles essentielles est cependant limité aux dommages contractuels typiques et prévisibles s'il n'y a faute grave ou s'il n'y a pas responsabilité pour violation à la vie, lésions corporelles ou de la santé. Une modification de la charge de la preuve au détriment de l'acheteur n'est pas affectée par les réglementations citées ci-dessus.
3. Si l'acheteur a droit à des dommages et intérêts en vertu de cet art. XI, ces droits se prescrivent à l'expiration du délai de prescription valable pour les droits à garantie pour vices matériels en vertu de l'art. VIII n° 2. En cas de droits de dommages et intérêts en vertu de la loi allemande sur la responsabilité relative aux produits, les dispositions légales régissant la prescription sont applicables.

XII. Tribunal compétent et droit applicable

1. Le seul tribunal compétent pour statuer sur tout litige lié directement ou indirectement au contrat si l'acheteur est un commerçant, est celui du siège social du fournisseur. Le fournisseur est toutefois autorisé à déposer une plainte au siège de l'acheteur.
2. Pour les relations juridiques liées à ce contrat, seul le droit matériel allemand est applicable à l'exclusion de la convention des Nations Unies sur les contrats de vente internationale de marchandises (CVIML).

XIII. Validité du contrat

En cas de nullité juridique de certaines de ces dispositions, le contrat reste applicable dans toutes ses autres dispositions, à moins que le maintien du contrat ne constitue une difficulté inacceptable pour l'une des parties.

XIV. Indications dans le catalogue

Seuls les catalogues du fournisseur en vigueur au moment de la conclusion du contrat sont valables. Tous les catalogues précédents et les indications qui y étaient faites perdent leur validité à l'entrée en vigueur du catalogue valable à la conclusion du contrat. Toutes les données techniques des produits du fournisseur mentionnées dans le catalogue traduisent les données de fonctionnement électroniques générales.

Conditions de garantie 02/2016

1. Sans préjudice de la garantie pour vices matériels fondée sur la réglementation de la loi, le fournisseur assume une garantie de durabilité conformément aux conditions suivantes :
2. Le fournisseur garanti l'absence de vices et de défauts des produits livrés sous la marque et dans l'emballage «HÜCO «pendant une période de 60 mois à compter de la date de livraison de l'objet. L'absence de vice et de défauts des autres produits se conformera en tout cas selon les prescriptions légales.
3. La garantie ne s'étend qu'aux vices cachés qui sont dus à des défauts de matériau ou de fabrication, mais pas aux détériorations des produits livrés suite à une usure normale. Sont en outre exclus les divergences insignifiantes de la qualité convenues, les atteintes négligeables à l'utilité, une usure naturelle et les dommages survenus après la cession d'usage suite à une manipulation défectueuse ou négligente, à une sollicitation excessive, à des moyens d'exploitation inappropriés ou qui sont provoqués par des influences extérieures particulières. Sont également exclus les composants non assemblés et/ou non autorisés par le fournisseur, ainsi que les dommages survenus à la suite de l'utilisation de tels composants et, en général, les dommages survenus à la suite de réparations ou d'essais de réparation qui n'ont pas été effectués par le fournisseur ou par des personnes autorisées par lui, ainsi que les dommages survenus à la suite d'interventions sans autorisation dans le composant. Sont également exclus les dommages provoqués par une influence chimique ou électrochimique, une utilisation inappropriée, un assemblage ou un raccordement non conformes, des influences météorologiques extrêmes, la non-observation des instructions de montage, de service et de maintenance ainsi que les dommages de transport dont le fournisseur n'est pas responsable.
4. Conformément à la garantie, le fournisseur procède à sa convenance dans les cas couverts par la garantie, soit à un échange du produit défectueux soit à l'élimination du vice, à condition que l'acheteur ait fait parvenir immédiatement sa réclamation par écrit avec une description très claire du vice. Si un défaut signalé n'est pas justifié, le fournisseur est en droit d'exiger le remboursement des coûts occasionnés à la suite de la réclamation injustifiée.
5. Cette garantie ne couvre ni les coûts générés pour le transport du produit jusqu'au fabricant en cas de garantie ni les risques en relation avec le transport.
6. Toute exigence ultérieure ou toute autre revendication, notamment les demandes de compensation pour les dommages survenus à l'extérieur de l'objet de livraison, sont exclues dans le cadre de cette garantie mais peuvent éventuellement être considérées comme des cas particuliers de responsabilité en vertu de la loi.
