

POWER AND MODULAR SOLUTIONS 2019

POWER DISTRIBUTION UNITS

Designated for heavy duty power distribution and main electric services protection, these PDU were developed based on a modular design concept for the utmost versatility.

They have been updated to deliver higher performance and respond to the new demands of these applications. They permit a simplified wiring harness layout in the engine bay to keep harnesses safe from water and dirt.

POWER DISTRIBUTION UNITS

FUSE HOLDERS & MULTIPLE FUSE BLOCK

This new generation of fuse holders can be used stand-alone or can be clipped together to form a multiple fuse block with bus bar.

JUMP START NODE

This product provides a solution for rational safe multi-way electric power distribution. It also features an optional threaded middle pin which serves as a safe power connection to start up and/or charge external electric devices such as batteries or other equipment. This component has a special design that allows it to be adapted to each application.

BATTERY DISTRIBUTION UNIT

Available in 2 different versions, with casted battery terminal in Z axis, right or left side, this battery distribution unit has compact dimensions which make it versatile and easy to be placed. The cover is tethered to the body to ensure it won't be displaced. Quality certified by stringent tests and procedures. Accomodates 1 MegaVal fuse.

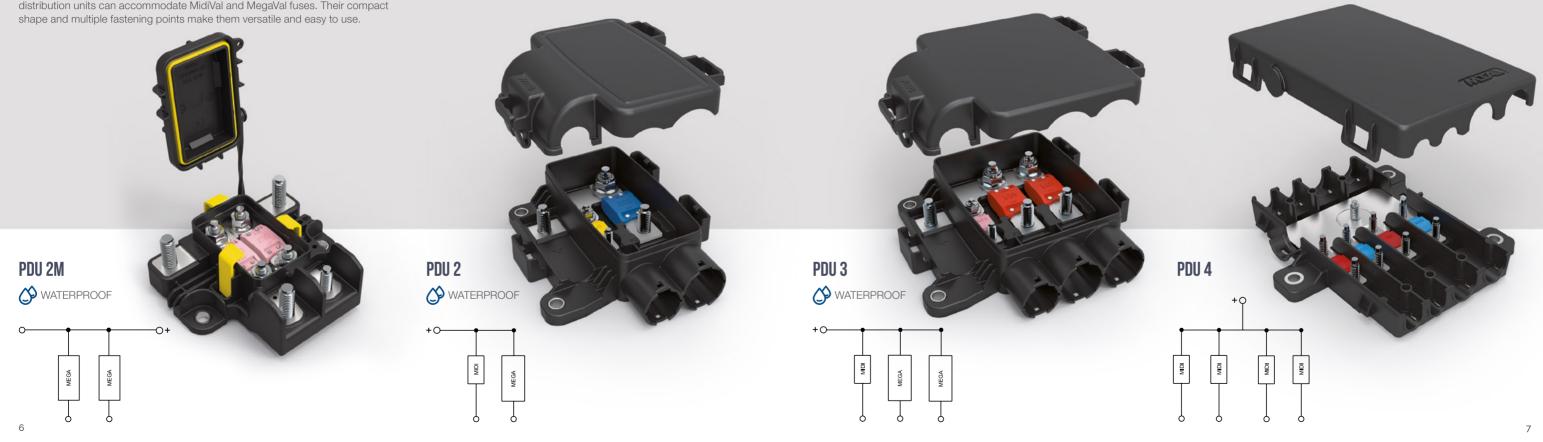

MEGAVAL HOLDERS & WATERPROOF

Waterproof MegaVal fuse holders featuring enhanced protection against bumping and tampering. Two versions available: one with cover with gasket to seal the fuse compartment, the other one with "extended" cover to protect the 2 stainless M10 screws too.

POWER DISTRIBUTION UNITS

Designed for both light vehicles and heavy-duty applications, these power distribution units can accommodate MidiVal and MegaVal fuses. Their compact

POWER DISTRIBUTION UNITS

MEC 25 & MEC 97

These configurable Modular Electrical Centers have been developed mainly for agriculture, construction, heavy duty and off-road applications.

MAIN FEATURES

- Press-fit technology.
- A Gore-Tex vent provides a barrier against water and dust and allows the free circulation of air, avoiding the formation of moisture.
- MEC can be fixed in flat, inclined or vertical position.
- Appropriate latches preload the cover against the seal and close the MEC.
- The cover is tethered to the body to ensure it won't be displaced.
- Anti-vibration system integrated inside the fixing points.

CUSTOMIZATION LEVELS

There are 4 customization levels Soft, Medium, Medium⁺ and High, where: ✓ means "customizable component",

- means "default component".

	Soft	Medium	Medium ⁺	High
Fuses and relays	\checkmark	\checkmark	\checkmark	\checkmark
Type and number of contents (mask)	-	-	~	~
PCB	-	~	\checkmark	~
External connections (studs and connectors)	-	-	-	~

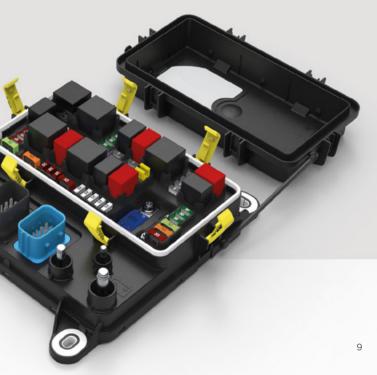

POWER DISTRIBUTION UNITS

MEC 97

Accepts 3 MaxiCompact (+3 spare), 34 MiniVal (+3 spare), 1 MegaCompact, 1 MidiVal, 8 Micro relays, 5 Maxi relays.

Optional module to convert CAN bus messages into digital outputs.

C-MEC 138

This configurable Cabin-Modular Electrical Center has been developed mainly for agriculture, construction, heavy duty and off-road applications.

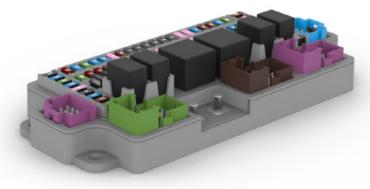

The C-MEC 138 with PCB made with press-fit, was designed for the cabin and with a high level of customization. It is ideal for new applications and for those who already use the MTA 5-way frame, with which it is perfectly interchangeable.

CUSTOMIZATION LEVELS

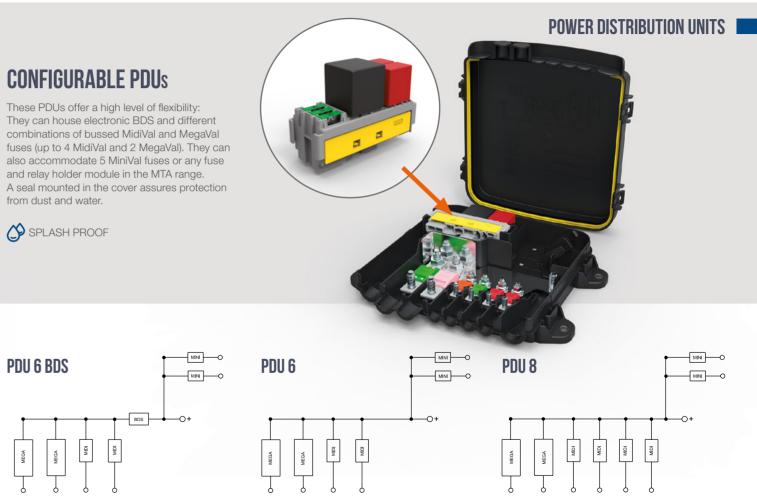

There are 3 customization levels Soft, Medium and High, where: means "customizable component",

FRAMES, BRACKETS, Covers & Modules

We offer 15 modules and a variety of frames, covers, and brackets to build a wide range of flexible modular solutions for holding fuses, relays, or diodes. All of these products are equipped with secondary locks to guarantee maximum safety and high performance. They are built to resist stress and provide reliable technology.

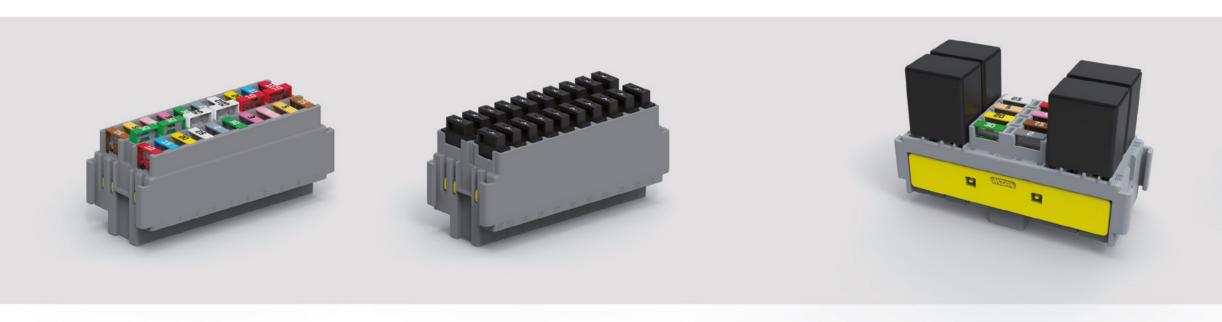

CONTENTS 26 MiniVal fuses

CONTENTS 20 diodes or 20 MiniVal fuses

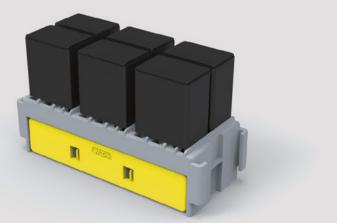

CONTENTS 8 MiniVal fuses 4 Micro relays

CONTENTS 6 Micro relays

CONTENTS 1 Maxi relay 1 Mini relay

CONTENTS 2 Maxi relays

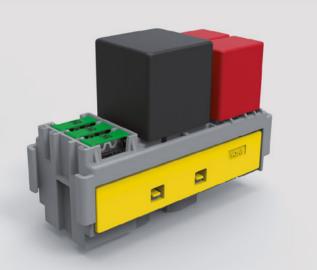

CONTENTS 4 MiniVal fuses 2 Mini relays

0301695

CONTENTS 3 MaxiCompact fuses 1 Maxi relay 2 Micro relays

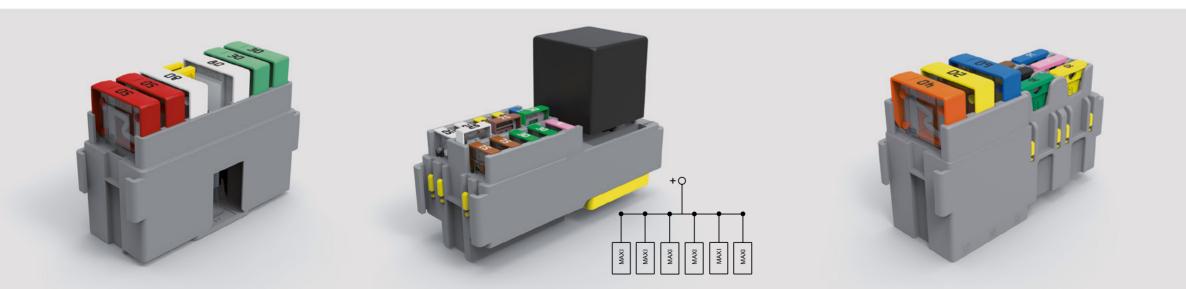

CONTENTS 6 MaxiVal fuses

CONTENTS 10 MiniVal fuses 1 Maxi relay

CONTENTS 3 MaxiVal fuses 6 UniVal fuses

MODULE 0301690

CONTENTS 4 MiniVal fuses 6 type A1 S fuses

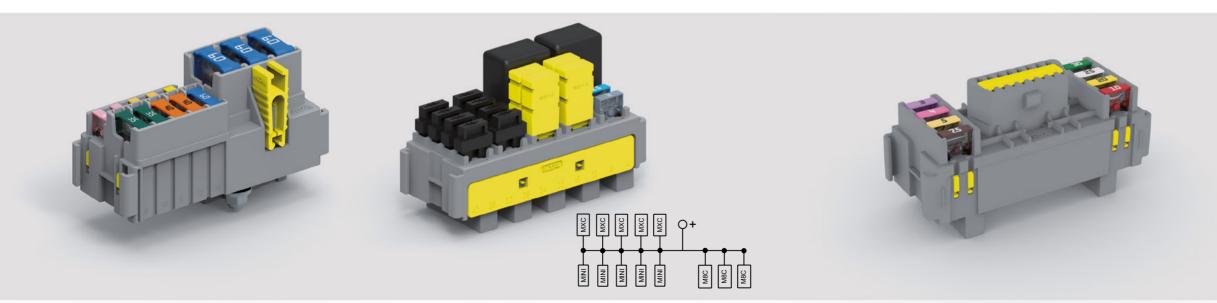

CONTENTS 5 MiniVal fuses 5 MaxiCompact fuses 3 M8Compact fuses

CONTENTS 20 MiniVal fuses or 20 circuit brakers or 20 diodes or 6 Micro 280 relays or mixed MiniVal fuses, diodes, circuit brakers

CONTENTS 8 MiniVal fuses 1 OBD connector

WATERPROOF MODULES

Vehicles operating around water and mud need advanced environmental protection. Our range of watertight modules has been developed to satisfy this need. All terminals are equipped with a grommet,

and a radial silicone seal housed between the module and its cover keeps the modules secured tightly.

Modularity is the core philosophy behind these products: all modules can be used interconnected or stand alone and fixed with dedicated mounting brackets. They can all accommodate fuses, relays, or both.

0301370

CONTENTS 30 MiniVal fuses or 10 Micro 280 relays or mixed relays and MiniVal fuses

0301491

CONTENTS 6 MiniVal fuses 1 MaxiVal fuse 2 Maxi relay 1 Micro relays

0301568

CONTENTS 18 MiniVal fuses 4 Micro relays

0301373

Same module with integrated mounting brackets.

WATERPROOF MODULES

0301569

CONTENTS 6 MiniVal fuses 1 MaxiVal fuse 1 Mini relay 3 Micro relays

0301374

Same module with integrated mounting brackets.
